LIBERTY SEATED QUARTERS 1838 – 1891

by Larry Briggs

Part 2

Last month featured Part 1 of the Liberty Seated Quarters series, covering 1838 No Drapery to 1858-S. In this month's issue, the date-by-date analysis continues with 1859 through 1873CC No Arrows.

1859
Mintage 1,344,000

Common date with a multitude of varieties—none seemingly rare. Common all grades up to BU: BU coins scarce. Comes with nice strike and luster or beautifully toned. Over the next four years, this date logo becomes small in comparison to previous years. This first year Proofs are struck in any quantity—800 Proofs struck.

1859-O
Mintage 260,000

Small Mintage but available in all grades AG-XF; AU coins very scarce; MS coins rare. 2 varieties for year. Comes with usual soft strike but nice luster.

1859-S
Mintage 80,000

Rare date all grades—usually rough surfaces or problems of some sort. Coins usually found softly struck and grades AG-VF; XF's are rare; AU's very rare with no real BU coins known-seen to date! Only one die known and easily identified, having "chips" around several obverse stars.

1860
Mintage 804,000

High Mintage coin—available in all grades and varieties. Comes well struck and with frosty luster. Varieties include T-2 obverse/T-2 reverse—both Mint State and Proof coins. 1,000 Proofs originally produced by the Mint, but, because of the Civil War brewing and monetary uncertainties, 458 pieces were melted, having not been sold.

1860-O
Mintage 388,000

Mid-range Mintage with 2 dies known. One of the better struck New Orleans issues and actually the best overall struck No Motto, New Orleans issue. The key word here is "overall" as one of the varieties in its die state comes with the appearance of No Mintmark from some Mint employee apparently polishing the Mintmark almost entirely off! Although neat, it is not rare as some have implied. Available all grades up to BU—BU coins scarce and usually with creamy luster.

1860-S
Mintage 56,000

One of the many branch Mint rarities in the series. A low Mintage issue with problems plaguing most coins. Very scarce all grades AG-VF, XF's are really rare. AU's very rare and NO REAL Uncs exist, although some have been slabbed! One of those I'd again pay to see with no wear/rub on the obverse thigh/reverse "right" eagle's leg-thigh. Anyone? Right!

1861
Mintage 4,853,600

Large Mintage date and available in almost any grade you want—with patience. Well struck is the norm with nice creamy luster. Again, a large number of Proofs issued (1,000), but now the Civil War has erupted, thus limiting coin collecting. The Mint melted 600 unsold pieces, leaving a scant 400 for the real issue and sales.

1861-S
Mintage 96,000

A low Mintage, scarce date coin with 2 varieties. Again, issue plagued with varying degrees of problems. Rarity of coin escalates with grade. XF's rare. AU's very rare, and true Mint State coins are unknown!

1862
Mintage 932,000

For a so-called common date, fairly scarce. With the Civil War in full swing, most were likely melted or exported. When high grade coins encountered, well-struck and frosty. Again, because of the Civil War, Proof Mintage now dropped down to 550 pieces with still 120 of these melted as non-sold coins.

1862-S
Mintage 67,000

A low Mintage coin scarce in all grades. Again, a problem plagued issued. Usually found AG-VF, XF coins are very scarce. AU coins rare; and MS coins very rare. MS coins come either very frosty or russet toned.

1863
Mintage 191,140

A scarce coin but readily available in all grades up to XF, AU's scarce; BU coins are borderline rare. Mint State coins are well-struck and come either very frosty or with heavy die polishing lines. Doubled Die reverse mentioned by Breen, is just strike doubling—not a Doubled Die and doesn't exist. 460 Proofs struck.

1864
Mintage 93,130

Scarce coin in all grades, but can be found with patience. Well struck and frosty when encountered, but like most issues, this date is easier to find in AG-VF than XF-AU. Like many dates of this series, it many times will come with 3 letters of Liberty—obverse—very well worn into the rim from 6-9 o'clock. Mint State coins are very scarce.

1864-S
Mintage 20,000

Rare date in all grades. When found, usually AG-F, and plagued by problems. VF's and XF's are rare and AU's probably have less than 10-15 pieces known. Mint State coins have a population of 10 or less pieces known! Only 1 obverse die and 2 reverse dies are known with the obverse die identified by the 1 in the date being doubled.

1865
Mintage 58,800

Very scare in all grades and strike varies with variety. One particular variety comes with a buckled obverse die giving the coin a bent appearance. Comes either brilliant and frosty or gorgeously toned over semi-PL surfaces. 500 Proofs.

1865-S
Mintage 41,000

A very scarce coin whose rarity escalates with grade. Usually encountered with problems of some sort. Many low grade coins exist—usually AG-VF. Rare in XF, AU's almost non-existent. With BU coins very rare. Only 1 die for year and well-struck except for die state where tops of date were "reworked," making tops of date weak. Last year of No Motto issue as well as a Large "S" Mintmark for series.

1866
Mintage 16,800

A rare coin in any grade of Good thru Mint State. Date pressure makes Proof more scarce than usual. Only 1 die and this damaged early in production making knee/thigh-corresponding area shield reverse flat. Unlike most dates/Mints, this date is more rare in **lower** grades than higher grades. With Motto reverse is now the new design change until final year (1891). The lone 1866 No Motto Quarter is actually a pattern-in-Proof—Judd-536.

1866-S
Mintage 28,000

Usually found in low grades and with some sort of corresponding problem. Mintmark now reduced to a small mintmark compared to previous years. Rarity escalates with grade. Normally found AG-VF. XF's very scarce. AU's rare and true Mint State coins are R-7! Only 1 die known.

1867
Mintage 48,000

A scarce to rare coin in all grades. Usually seen AG-VF and comes with very uneven wear pattern in low grades. True rarity starting to be recognized more recently. Rarity escalates greatly with grade—XF coins rare. AU very rare. MS coins R-7+!! Only 1 die known.

1867-S
Mintage 48,000

Very scarce to rare in all grades. Rarity just now starting to be recognized—usually found in low grades AG-F. Because of usually seen uneven strike and wear, coins appearance is terrible. AG-F's are scarce; VF-XF's are very scarce. AU's are rare, and Mint State coins are very rare. Only one die known.

1868
Mintage 29,400

Scarce in all grades and again (sorry) rarity once more escalates in grade. Usually seen is AG-VF; XF's scarce; AU's very scarce and Mint State coins are rare. One die known for business strike coins—one other die for Proofs. Proof die has a doubled date. Strike usually very good. 600 Proofs issued.

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1868-S
Mintage 96,000

A scarce coin in all grades and usually found with some sort of problem. Rarity increases with grade. AU's rare and Mint State coins moderately struck. Creamy luster, and very rare. Only 1 die known.

1869
Mintage 16,600

A very scarce/rare coin in all grades. Circ and Mint State coins overshadowed by Proofs. Only one die for business strikes. Very scarce/rare in AG-XF; rare in AU and very rare Mint State (R-7). Gems are virtually non-existent! Mint State coin die slightly buckled; semi/full Prooflike with many die polishing lines. 1 of date tripled. Proofs have only 1 die with slight Doubled Die obverse on horizontal/vertical shield stripes. Low grade coins plagued by uneven wear. 600 Proofs struck.

1869-S
Mintage 76,000

Scarce coin in all grades. Rarity escalates with grade. Many low grade coins exist and are sold repeatedly as its Philly counterpart because of the reverse wear virtually rendering the "S" as only 1 die with the following characteristics: extra digits in dentils below/rt. 86-date; bottom of 9 flat on '69-S; round on '69-P. Date on "S" much lower + 99% of '69-S coins have major obverse crack thru stars-head; obverse die seems to come slightly buckled as if bent. Mint State coins usually toned and are quite rare, R-6+.

1870
Mintage 87,400

Well-struck overall for date and scarce coin AG-XF. AU's very scarce and Mint State coins are rare. Only 1 Mint State die known, and it comes very heavily rusted on obverse devices, seen even on very low grade coins. Mint State coins are usually semi-Prooflike fields with pale, frosted devices. 1 Proof die known with 1,000 coins struck.

1870-CC
Mintage 8,340

Very rare coin in any grade and considered the key of the collectable issues of the series. Strike very erratic. Many coins seen will have 3 or 4 letters of LIBERTY and no rims obverse 3-9 o'clock + no rims reverse 3-9 o'clock! Only 1 die used with this reverse, but reused again on 71; 72 and 73 With Arrows coins as the "workhorse" die. Most of this issue plagued with severe problems of some sort and not uncommon to find pitted or corroded. AG-VF coins rare. XF's very rare. AU's R-7. Only 1 or 2 true Mint State coins exist. In the mid-eighties, I could tell you the provenance of every existing coin and at one time owned 11 of 27 then known! Possibly 75-85 exist in all grades.

1870-S
Mintage Officially 0

None known to exist and none reported Minted, but neither were the 1870-S Half Dimes! It wouldn't be shocking if someday one were to surface.

1871
Mintage 119,160

A very scarce coin and very undervalued as a date. Many probably melted early in 1873 as worth more then face value. Four Mint State dies and 1 Proof die known. Scarcer to find than one would think and especially a fully struck coin. Strike plagues this issue as 2 of the Mint State dies were polished out making "Liberty" weak + some seem buckled on the obverse while on some Proofs—buckled on the reverse indicating collar and striking pressure problems or both. 960 Proofs issued.

1871-CC
Mintage 10,890

Rare in any and all grades. Usually seen AG-F with some sort of problem: pitting, corrosion, etc. Rare AG-F, escalating with grade. Probably no more than 10 or so in AU exist with only 3 or 4 Mint State coins. Guesstimated population in all grades, 125-150 pieces. Only 1 die known, easily distinguished with first 1 of date tripled at base, mated with the 1870-CC reverse.

1871-S
Mintage 30,900

A very scarce coin in all grades with rarity escalating with grade. True rarity just now starting to be recognized. Usually found AG-F and with some sort of problem including that old-fashioned bug once again of being used for jewelry, then damaged removing the "pin". In AU and Mint State grades, when problem-free, nice strike and nice luster. Very underrated.

1872
Mintage 182,950

Scarce coin in all grades and probably made scarcer as again worth more melted than face value otherwise. Usually found in low grades and although scarce not as scarce as 1871. In Mint State, however, downright rare. Strike is good for date and when Mint State examples found, they come exquisitely toned. 4 Mint State dies and 1 Proof die, with 960 Proofs issued. The reverse of this Proof die now becomes a workhorse die—used almost exclusively for Proofs over the next 9 years to 1880.

1872-CC
Mintage 22,850

The "easiest" of the four rare "CC" coins. Usually found AG-F and plagued with a variety of problems. This coin, however, becomes the rarest of the "top 4" in AU and Mint State grades and probably 5-10 AU's and only 1 or 2 true Mint State coins are known! That's maybe 12 coins total for the grades AU and MS combined! Only 2 dies known, one never used, residing in a western collection, the other distinguished by a large diagonal die scratch thru obverse shield (reverse 1870-CC mated here for 3rd time). Possibly 400-450 pieces exist in all grades.

1872-S
Mintage 83,000

In my opinion, the **rarest** "S" coin in the series! In a 30-year period, I purchased EVERY coin I saw and had 22 pieces. That same span covered an average of 45 shows and 30+ auctions per year, and no one cared then! 2 dies known. Coin rare in all grades, escalating with grade. I estimate at 150 + pieces, all grades. The finest known is the Norweb coin—Gem BU.

1873 No Arrows, Closed 3
Mintage 40,600

An extremely scarce/rare coin in all grades with true rarity just now starting to be recognized. The small mintage was surely made scarcer as many were melted, being worth more than face value. Very scarce in AG-VF. XF's are rare, and AU and Mint State coins are very rare. Strike is poor for a Philly coin. 2 Mint State dies are known and 1 Proof die known. 600 Proofs issued with several Circ Proof coins seen over the years!

1873 No Arrows, Open 3
Mintage 172,000

A very scarce coin, but nowhere near as rare as its Closed 3 cousin. 2 dies known with one of these dies clashed and poorly struck. AG-XF scarce. AU's very scarce, and Mint State coins usually brilliant, quite frosty and rare. No Proofs struck for the Open 3 variety.

1873-CC No Arrows
Mintage 4,000
(most melted)

Overall, the rarest coin of the series, but considered non-collectable because of its rarity. Most apparently melted with very few escaping the melting pot, save assay pieces and perhaps a few as souvenirs. To date, 5 pieces are known which include 3 Mint State and 2 Circs, with one additional in Circ *rumored* to exist. Odd thing here is that this reverse now is different than what had previously been used and only gets used one more time, briefly in 1876. Before my book's release in January '91, the first 1873-CC No Arrows slabbed coin by a major grading service was sent out for authentication to some so-called expert. Problem was that before my books release, everyone including Breen (except me) thought and stated the reverse on the 1870-72-CC coins were the same. The reverses are different, and I always wondered who that "expert" was since it wasn't me.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

LIBERTY SEATED QUARTERS
1838 – 1891

by Larry Briggs

Part 3

This is the final installment of a three-part in depth article on Liberty Seated Quarters (1838-1891). Issues that are covered herein begin with 1873 With Arrows and conclude with 1891-S, the last date of the series.

1873 Arrows
Mintage 1,271,740

Change of design indicated new, lesser weight of coin. Readily available in all grades; common in AG-VG, with XF-AU's scarce and Mint State coins very scarce. True Gems are rare. Usually fairly well struck and comes with creamy luster. Several Mint State dies exist with 1 Proof die (rev. '72). 540 Proofs issued.

1873-CC Arrows
Mintage 12,462

Very scarce/rare coin in all grades, with rarity escalating with grade. Usually found in low grades with some sort of problem. Rarity for set collectors, compounded by many Type collectors using this coin as the only "CC" Arrows Quarter for the sets. Only 1 die used, and this new Arrows obverse used with the reverse "workhorse" 70-72-CC reverse for the final time. Add to the fact, 2 hoards exist for this date, and suddenly this coin is rarer than it should be. Guesstimate 135-150 pieces all grades.

1873-S Arrows
Mintage 156,000

A scarce coin, usually found in low grades AG-VF. XF-AU's scarce, and Mint State coins borderline rare. 2 dies known. Strike is average, with creamy luster. Very undervalued as a date.

1874 Arrows
Mintage 471,850

Scarcer than the '73-P with Arrows coins, but still available with patience in all grades. Strike is better than previous year. One problem that seems to have surfaced around this time is either poor steel and the annealing (hardening process) of the dies. This problem stayed prevalent until 1878 when it seemed to basically disappear. What this boiled down to is that almost every die of this period has cracks to some degree. In fact, it's almost impossible to find any Quarters, of any Mint, in this period without die cracks! Proof die (rev. '72) with 850 Proofs issued.

1874-S Arrows
Mintage 392,000

A scarce coin, but readily available in AG-MS. 3 dies known, and all have weakness of strike to some degree. Unlike most dates and Mints in this series, Mint State coins are available thanks to a West Coast bank hoard found in 1949. Mint State coins are usually brilliant with creamy luster.

1875
Mintage 4,292,800

Available in all grades AG-Gem. Usually well-struck with nice frosty luster for Mint State coins. Both Type 1 and Type 2 reverse coins exist for year, neither seem to be rare. 2 Proof dies known with 630 Proofs issued.

1875-CC
Mintage 140,000

A very scarce issue that just recently has started to be recognized for its true rarity. 2 dies known, both Type 2 reverses. Scarce in AG-VF; very scarce in XF. AU's are rare and Mint State coins rarer! Besides already being a tough date, problems and irregular strike plague this issue. Very underrated in all grades.

1875-S
Mintage 680,000

A very poorly struck issue. Usually found in low grades AG-VF; XF/AU's are scarce and Mint State coins are very scarce. 4 dies known with both Type 1 and Type 2 reverses. Mint State coins, when found, are usually lightly toned with a pale, creamy luster. So-called mintage seems incorrect for this coin's availability. Underrated!

1876
Mintage 17,817,410

The largest mintage for the entire series. Poor steel and/or poor annealing process made for repeated cracked dies and poor strikes. As the mintage would imply, many varieties exist for the year: repunched dates, MPDs, as well as Type 1 and Type 2 reverses. With patience, any grade can be obtained. At least 3 Proof dies with 1,410 Proofs issued.

1876-CC
Mintage 4,944,000

A popular date found in all grades AG-MS without much difficulty. Many varieties exist with my last count ending at 28! That does not include using the 3 known Edge Reedings. Contrary to many previous printings, the fine Reeded Edge coins are not rare, but instead are the most common variety for this year!

1876-S
Mintage 8,596,000

A high mintage date with an assortment of dies, none seemingly rare. Comes with Lg. "S"/Sm. "S". Also Type 1 and Type 2 reverses with various combinations of such. Strike varies from die to die, from poor to well struck. Available in all grades AG-Gem BU.

1877
Mintage 10,912,080

Again, a large mintage year, thus many varieties as one would expect. However, not as plentiful as mintage would imply, probably because many melted for new 1878 Morgan Dollar. Available in all grades AG-MS with Mint State coins having nice, creamy luster or gorgeously toned. Both Type 1 and Type 2 reverses available on Mint State and Proof coins. 880 Proofs struck.

1877-CC
Mintage 4,192,000

Popular date because of the "CC" nostalgia, but not rare. As expected with such a large mintage, several varieties exist. Only Type 2 reverses for the year, but comes with doubled date, tripled 7's, Lg. "CC's", Sm. "CC's". Available in all grades AG-MS, including Gems. Mint State coins usually blast white with frosty luster.

1877-S
Mintage 8,996,000

Again, large mintage with several varieties known. Found in all grades AG-Gem BU. Poorly struck is the norm. Mint State coins have either creamy luster or are Prooflike. Scarcest variety is the S/Horizontal S. A small hoard of 15 pieces in Choice BU surfaced at Indiana State show in 1978.

1878
Mintage 2,260,800

Scarcer than mintage would imply—indicating many probably were melted for new Morgan Dollars. Strike in general is poor for a Philly coin. Even Proofs were sloppily made. Mint State coins are either nice and frosty or semi-Prooflike. Two dies known for Proofs, with 800 produced.

1878-CC
Mintage 996,000

Many coins poorly struck, resulting in low grade coins looking horrendous. Scarcest of the three "common" years: '76, '77, '78. Nice, really nice with Cameo Prooflike coins known in Mint State. Usually found AG-VF and with problems. Available in any grade with patience.

1878-S
Mintage 140,000

Last branch Mint coin for 10 years and scarce to rare as grade escalates. Found with a multitude of problems including pitting and corrosion, indicating improper mix for the planchets. Rarity for the most part just starting to be recognized. Scarce AG-VF. Very scarce in XF, and rare in AU. Very rare in Mint State.

1879
Mintage 13,850

This and the next ten Philly years have mintages dramatically reduced. Softly struck in many areas with AG-XF scarcer than AU and BU coins. Only one Mint State die and one Proof die (still reverse '72) used. Mint State coins either frosty or Prooflike. Proof discrepancy however pu-

zling Mint records show 250 Proof Quarters, while Mint records also show 1 100 Proof Sets issued. Go figure. The old adage that Proof dies were put into business strike production is false, except for 1880. Many Prooflike coins of '79-'90 are often mistaken for Proofs when not so.

1880
Mintage 14,955

Scarce in all grades, with AG-AU grades scarcer than Mint State coins. One obverse and two reverse dies used for Mint State coins. One obverse and two reverse dies used for Proof coins. Last year of 1872 Proof reverse die used and for the first time on Mint State as well as Proof die. Mint State coins frosty or Prooflike and fairly well struck. 1,355 Proofs struck.

1881
Mintage 12,975

Scarce date in all grades with AG-XF being scarcer than AU, Mint State or Proof coins. Strike varies but usually weak. Most Mint State coins are Prooflike and confused with Proofs. One Mint State die and one Proof die. Scarcer than previous two years. 975 Proofs issued.

1882
Mintage 16,300

Although mintage higher, date tougher than three previous years. G-XF's rare; AU/MS very scarce. Only one Mint State die and one Proof die. Mint State die has doubled 18 of date. Strike above average and again Prooflike Mint State coins often mistaken for Proofs. 1,100 Proofs issued.

1883
Mintage 15,439

Rare date with all grades except Proof. Where low grades AG-VG reverses are usually "washed" away and virtually gone! Again scarcer in AG-XF than AU and Mint State. Mint State coins frosty and semi-Prooflike or full Prooflike causing the "Proof/Mint State confusion." Proofs have tops of extra 83 in dentils below both 8's of date, separating the one Proof die from the Mint State die. 1,039 Proofs issued.

1884
Mintage 8,875

Rare date in all grades except Proof. Only one Mint State die and one Proof die. Difference is Mint State die left base over space between dentils; Proofs have left base over center of dentil. Low grades AG-XF far rarer than AU and Mint State coins. Proofs carelessly made or impaired, but date position of 1 tells the story. 875 Proofs issued.

1885
Mintage 14,540

Usually found XF-MS or Proof with AG-VF coins rarer than preceding. One of the best struck of the era with the same confusion throughout '79-'90, as Prooflike Mint State coins are sold as Proofs, and mishandled Proofs coins as BU. 2 Mint State dies, 1 Proof die. 940 Proofs.

1886
Mintage 5,886

The lowest minted coin/date of the series and the rarest of the '79-80's. Circ coins in any grade very rare, and I'm not sure I've ever seen or heard of an AG/G. Only 1 Mint State die, and 1 Proof die. All Mint State coins are Prooflike but easily distinguished from Proofs as tops of both 8's as well as "LIBERTY" are weak. Although it looks full, under a glass it disappears and becomes mushy from die polishing. Very underrated (as is over one half of the series) in today's market. Collector pressure, like the 1866 has made Proofs scarcer than mintage would imply. 886 Proofs struck.

1887
Mintage 10,710

Rare date in all grades with only one Mint State die and one Proof die. Mint State coins are either Very creamy or Prooflike. Stars usually weak. F-VF or Unc are the normal grades found. AG-F and XF/AU are the rarest of grades. Business strike die has horizontal scratch through obverse dentils. 710 Proofs issued.

1888
Mintage 10,800

This and 1889 are two of the most overlooked rarities of the '80's dates. Almost never seen in Grades AG-VF. Mint State coins usually well struck with creamy luster. One Mint State die and one Proof die. 800 Proofs struck.

1888-S
Mintage 1,216,000

Fairly large mintage and because of such, several die varieties struck. Virtually never seen fully struck, and in fact, a couple of dies have "BER" polished out even in Mint State. When low grade, presents a horrendous looking coin. Obverse never fully struck to begin with and in low grades, reverse rims wear down severely from 3-9 o'clock as well! Mint State full strike frosty examples are very scarce/rare.

1889
Mintage 12,711

Last of rare '80's dates usually seen in VF-Mint State; AG-F coins rarer. Mint State coins come very satiny or are semi-Prooflike. Only one Mint State die and one Proof die. 711 Proofs struck.

1890
Mintage 80,590

A scarce but not rare coin found in all grades AG-MS. Usually some softness to strike, but in Mint State usually Very Choice. Two Mint State dies and one Proof die. 590 Proofs struck. One controversial die/coin exists for year with one side a "Proof", and the other side frosty.

1891
Mintage 3,920,600

Last Philly coin of the series that is usually poorly struck for variable reasons from poor die preparation to mass production. Found in all grades from AG-MS. Mint State usually very frosty. Several Mint State dies, one Proof die. Rarest variety has extra "89" in denticles below '89 date. 600 Proofs struck.

1891-O
Mintage 68,002

This is the only New Orleans with Motto Quarter, and scarce/rare in all grades. Scarce AG-F. Very scarce VF/XF, and rare in AU. Very rare in Mint State. Poorly struck issue, many times having 3 or 4 letters of "Liberty" obverse, FR/AG reverse. Branch Mint Proofs exist for date with two verified and two others rumored. Mint State coins seen are very creamy with luster or gorgeously toned.

1891-S
Mintage 2,216,000

Last coin of the issue of Liberty Seated Quarters. As expected, because of its mintage several dies exist, none rare. Found in all grades, AG-MS, and usually well-struck for issue, Mint State coins found well-struck with creamy luster or gorgeously toned.

In summary, the Liberty Seated Quarter series is by far the most difficult and rarest of all the Seated Liberty issues to complete. Not factoring grade, for once money isn't the object - patience for each of the rare/scarce dates is! Overall, possibly 15-20 complete sets of dates with Mints might exist today! Something that was taught to me almost 50 years ago by *Coin World* co-founder Jim Johnson, "If it's common today, it will probably be common tomorrow - if it's scarce/rare today, then it'll probably be scarcer/rarer tomorrow." Applying this philosophy today, most of this series is still underrated and undervalued. Good luck and happy hunting.

Mike Fuljenz's Universal Coin & Bullion™

22 Years of Award Winning Reporting

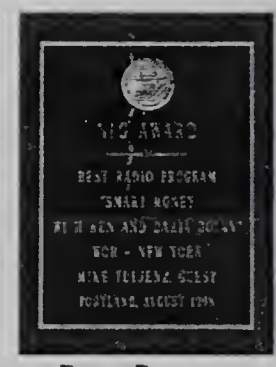

Universal Coin & Bullion of Beaumont is proud to announce that the company's top executive, President Mike Fuljenz, has been honored again by his peers nationwide for his reporting. At the 2007 American Numismatic Association World's Fair of Money® convention in Milwaukee, Wisconsin, Fuljenz received an Extraordinary Merit Award for his newsletter, from the Numismatic Literary Guild an organization composed of the profession's top editors, publishers, authors and leaders. This was Mike's 25th prestigious award, covering seven categories over the past 22 years from the guild.

BU ROLLS

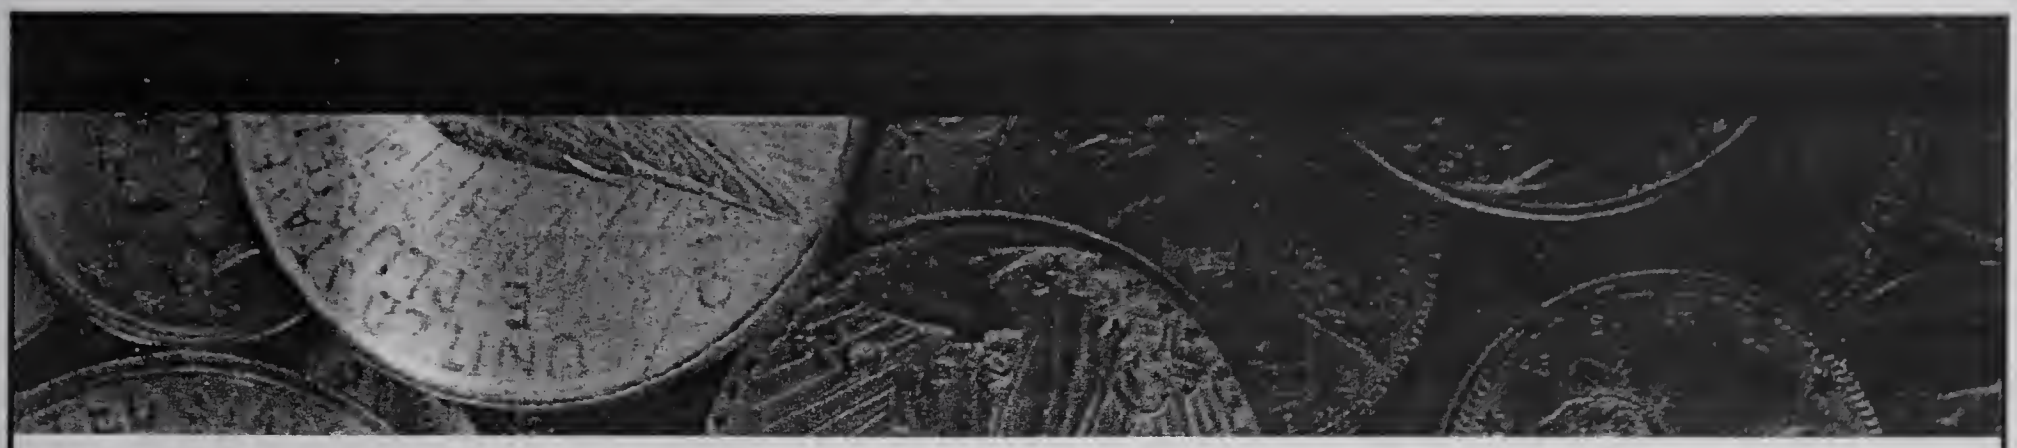

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices – particularly the pre-1941 issues. Washington rolls – dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

1893-1897 New Orleans Morgan Dollars

by Robert Lehmann

In order to fully appreciate and understand the rarity of the 1893-97 New Orleans Morgan Dollars, one must first review the history of this period. The Depression of 1893 was one of the worst in American history, with unemployment exceeding 10%. Part of the reason it was so bad was that this high rate was sustained for 5 or 6 consecutive years, killing any chance of a quick recovery. The National Bureau of Economic Research estimated that the economic contraction began in January 1893 and continued until June 1894. There was a brief reprieve as the economy grew until December 1895, but was then hit by a second recession that lasted until June 1897. The depression had been blamed on, among other things, the deflation dating back to the Civil War, the Gold standard and poor monetary policy. The economy was the subject of great debate in the political arena. While campaigning for President in 1896, William Jennings Bryan made his famous proclamation at the conclusion of his speech saying, "...you shall not crucify mankind on a cross of gold." The issue was whether to endorse the free coinage of Silver at a ratio of Silver to Gold of 16 to 1. Republican William McKinley won the election, and upheld the Gold standard.

The overall production of all branches of the U.S. Mint dwindled during this period, and most would-be collectors opted for spending their coins in lieu of saving them. These factors were responsible for creating several numismatic rarities, amongst them the New Orleans minted Morgan Dollars from 1893 to 1897. Since the circumstances and details differ for each year of production, we will examine these New Orleans Dollars on a case-by-case basis, starting with the 1893-O.

1893-O Morgan Dollar

With 300,000 coins struck, the 1893-O Morgan Dollar has the lowest mintage of any New Orleans minted Morgan Dollar, and is the 5th lowest overall mintage for the series. Scarce in Circulated grades, it becomes very scarce in Uncirculated condition and downright rare in Gem Uncirculated condition. The average Uncirculated 1893-O can vary from being flatly struck to well struck but seldom is fully struck, especially on the obverse. The luster ranges from indifferent to acceptable. Surface abrasions and bag marks tend to be a major problem. Although some small hoards of this date have surfaced, no original rolls have been reported. In Prooflike, the 1893-O is very rare. Examples usually have little contrast between fields and devices and can be poorly struck. Perhaps the New Orleans Mint favored polishing worn-out dies instead of replacing them. Three obverse dies and two reverse dies were responsible for striking the entire mintage. The PCGS and NGC combined population for specimens graded MS60 or higher is over 1,400 pieces, with only 111 pieces graded MS64, 8 graded MS65 and 2 coins graded MS66. The PCGS and NGC combined Prooflike population is a paltry 36 pieces. Deep Mirror Prooflikes are rarer yet, with only 21 pieces graded by both services. Two of the most remarkable 1893-O Dollars known are the Amon Carter/Jack Lee specimen graded MS65 DMPL by PCGS and the Eliasberg specimen graded MS66PL by NGC. It should be noted that neither coin is fully struck over Liberty's ear. Suffice to say, a fully struck, Prooflike 1893-O would be a great find, if such a coin even exists. Wholesale Bid for MS60 specimens is $1,800, which this author believes is a bargain. MS63 graded pieces jump to $5,500 Bid, MS64s are Bid at $13,500 with MS65s Bid at $155,000. For the collector trying to assemble a high-quality Morgan set on a budget, a **premium quality** MS64 specimen would present the best value, even if it meant paying a significant premium over MS64 Bid. Bid for MS63 to MS65 DMPL examples range between $8,000 and $160,000, a very small premium over the regular Mint State prices. I think it would be all but impossible to lure a DMPL specimen into the marketplace even at these optimistic numbers. To illustrate this, the aforementioned Jack Lee coin traded privately several years ago, for in excess of $250,000. Although Wayne Miller stated that investors should avoid this date, I believe this trend has changed. The 1893-O Morgan, at current levels, represents an excellent value, especially when compared to its much more common (and almost equally expensive) "CC" counterpart.

1894-O Morgan Dollar

Overall, the 1894-O is the most available of all 1894 dated Dollars. Relatively common in lower grades, the majority of 1894-O Dollars were released into circulation. As very few original bags have ever surfaced, it is probable that most surviving Uncirculated coins were melted due to the Pittman Act of April 1918. This Act gave the U.S. government the right to melt up to 350,000 Silver Dollars. The Silver would be used to strike bullion or other Silver coins. Consequently, the 1894-O is a conditional rarity in any grade of Mint State, and particularly so in the Choice and Gem grades. The greatest attribute of Mint State 1894-O Dollars is their luster. Rich, cartwheel luster is more the norm than the exception. The biggest problem with this date is the strike. In 30+ years of dealing in Morgan Dollars, I have never seen a fully struck 1894-O. In fact, it may be the single most difficult Morgan date to locate with a full strike. This is why so few pieces are graded MS65. Between PCGS and NGC, there are a mere 13 pieces graded at this level, with none finer. At the current wholesale MS65 Bid of $47,000, this date seems seriously undervalued. A recent PCGS MS65 specimen sold at the F.U.N. 2008 Bowers sale for $48,300 retail. The coin showed a light fingerprint in the left obverse field, and like most other 1894-O Dollars, was flatly struck. In its defense, the luster and surfaces were both outstanding, but this probably is as good as it gets for an 1894-O. I am of the firm belief that if 1880-S grading standards were applied to this date, there would be no coins graded above MS64. In Prooflike, the 1894-O is very scarce. Most of these coins are dull and rather ugly in appearance. The luster tends to be gray and chrome-like rather than the outstanding luster normally found. The 1894-O is virtually unknown in Deep Mirror Prooflike, and conditionally, is one of the major rarities in the Morgan Dollar series. From an investment standpoint, I believe that a certified MS60 piece at the current wholesale Bid of $430 is one of the best affordable Morgan Dollar dates to salt away. According to the PCGS/NGC population reports, there is a combined total of 944 1894-O Dollars graded between MS60 and MS62. Despite this, trying to find more than 1 or 2 pieces at a major coin show can prove to be a real challenge.

EXECUTIVE DIRECTOR Pauline Miladin
EDITOR Keith M. Zaner
PUBLISHER Shane Downing
CIRCULATION & ADVERTISING Betty Morris

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer-to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1895-O Morgan Dollar

With a mintage of only 450,000, the 1895-O Morgan is a semi-key date. Like most of the other New Orleans dates discussed here, the majority of these pieces were released into circulation. Any 1895-O Dollar is scarce, although circulated examples are hardly rare. In Mint State, the 1895-O is the third rarest Morgan Dollar, eclipsed only by the 1892-S and 1893-S. I have never heard of an original roll of Uncirculated 1895-O Dollars, let alone an original bag. Whatever small quantities of this date that *may* have existed in high-grade, probably met their demise in the melting pots of the Pittman Act. The typical 1895-O is softly struck and will have very subdued luster. Bag marks and other surface abrasions are the norm. Only 3 obverse dies and 2 reverse dies are known. Extended die life could help explain the poor quality of most Mint State survivors. Although any Uncirculated 1895-O is a rarity, MS63 and above pieces are extremely rare with a total of only 65 coins graded by PCGS and NGC combined. Out of this number, only 6 coins have merited a MS65 grade, with 2 MS66s and a lone MS67. The PCGS MS67 piece is the ex-George Bodway/Jack Lee coin and is spectacular in every regard. This piece has thick satiny luster with a virtually full strike and pristine surface preservation. It is unlike any other 1895-O Morgan that I have seen. Quality control was simply not a priority at the New Orleans Mint in 1895, especially in the middle of a depression. A Prooflike 1895-O Morgan is very rare, with few examples graded by either PCGS or NGC. There is a small group of DMPL 1895-Os that have been labeled both *Proof* and *Specimen* by NGC. They are very different from the normal 1895-O Dollar. Fully struck, these pieces also have partially squared rims and deep watery fields. Some collectors believe that these coins were struck with a special purpose, although most stop short of calling them Proofs. Despite semantics, these are some of the most attractive of all known 1895-O Morgan Dollars. Locating one, let alone affording one, may prove difficult. At the current wholesale Bid of $13,700, MS60 graded specimens seem properly valued. However, at the current $42,000 Bid, MS63 examples still represent good value. A Gem MS65 piece has not recently traded. When one does, I predict that the current Bid of $160,000 will be yesterday's news. Despite their current high prices, all Mint State 1895-O Morgan Dollars should prove to be prudent acquisitions for the collector with holding power.

1896-O Morgan Dollar

With a mintage of 4,900,000 pieces, the 1896-O can hardly be considered scarce. Every time our firm purchases a circulated group of Silver Dollars, it is littered with 1896-Os. So then, what's the big deal about this date? In five words I will sum it up–*Uncirculated coins were **NOT** saved.* Conditionally, the 1896-O is a rarity. As a date, it is not. CDN illustrates this point, as XF pieces Bid at only $20.00, whereas MS60 pieces Bid at $1,075, or a multiplier of nearly 54 times. As one moves up the grading scale, 1896-O Dollars become more and more elusive. This date is a rarity in MS64, with only 35 pieces graded between PCGS and NGC. In MS65, the 1896-O is one of the rarest of all Morgan Dollars. To quote Wayne Miller, "No other Morgan Dollar is consistently deficient in luster, strike and degree of surface abrasions as the 1896-O." My observation is that the majority of Uncirculated 1896-O Morgan Dollars look like sliders. This is usually due to their drab, lifeless luster. I can think of no other date, 1901 included, that has worse luster than an 1896-O. Strike and surface abrasions are also major problems with this date. But, I believe either or both could be overlooked if this date possessed more vibrant luster. By far the finest 1896-O Morgan I have encountered was the Jack Lee coin graded MS66 by PCGS. This piece had nice satiny luster with a good strike and absolutely pristine surfaces. Although many high-grade 1896-O Dollars have shown up in treasury bags, most of these pieces are sliders by today's standards. I have never seen, or heard of, an original, Uncirculated bag of 1896-O Dollars. Most of this date was released into circulation. If any quantity of Mint State pieces survived, they probably met their demise in the Pittman melt. Prooflikes are very rare, and Deep Mirror Prooflikes are extremely rare. When encountered, they are unattractive with grey brilliant surfaces and flat-matte devices with little or no contrast. What has always held the price of this date back is its lack of appeal. With such a high mintage and so few attractive survivors, all but the most ardent collectors have steered clear of 1896-O Morgans.

1897-O Morgan Dollar

1897-O concludes the rare 5-date run of mid-90's "O" Mint Morgans. Similar to the 1896-O in many regards, the 1897-O had an ample mintage with few nice survivors. Like its predecessor, the 1897-O is very common in Circulated grades but gets conditionally rare in MS60 and above. The typical Mint State 1897-O Dollar will have a below average to average strike, soft satiny luster and an abundance of surface abrasions. Most Mint State survivors tend to grade MS60 through MS62. In MS63, the 1897-O becomes fairly scarce, as evidenced by the current wholesale Bid of $3,550. MS64 pieces are rarer yet, with PCGS and NGC grading a combined total of only 65 coins. At the current Bid of $12,600, these MS64 pieces seem undervalued. Although GEMS are very rare, a few really super pieces are known. Amongst the finest are the Jack Lee coin and the Eliasberg coin, although the latter has a curious circular mark in the right field of the reverse. Both coins have intense satiny luster with good strikes and pristine surfaces. Another Gem graded MS66 by PCGS from the 5/06 Superior sale boasted an outstanding satiny sheen with beautiful peripheral toning and equally superb eye appeal. This likely is the same piece that Miller described in his Morgan and Peace Dollar textbook as "by far, the finest known." Prooflike and DMPL 1897-O Dollars are very rare, although not quite to the extent of the 1896-O. They tend to be grey brilliant Prooflikes with little or no contrast between the fields and devices. An extremely attractive example graded MS64 DMPL by PCGS exists. However, this coin has not made an appearance in over a decade. As unattractive as the typical 1897-O Dollar is, the few eye-appealing specimens that occasionally surface excite both collectors and their checkbooks.

In Conclusion

Perhaps no other anomaly in the Morgan Dollar series is as intriguing as the 1893 through 1897 New Orleans minted coins. Speculation is that most of these coins were initially ignored by collectors. The depression further compounded the survival rate, as only well-heeled collectors could afford to save coins. And then of course, many Silver Dollars were melted in response to the Pittman Act.

With the advent of the internet and information sharing at an all-time high, it is only a matter of time before these dates are all fully understood and appreciated for their true rarity. After all, they are cornerstones in the Morgan Dollar series, which remains one of the most popular in American numismatics.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must have eye-appeal.**

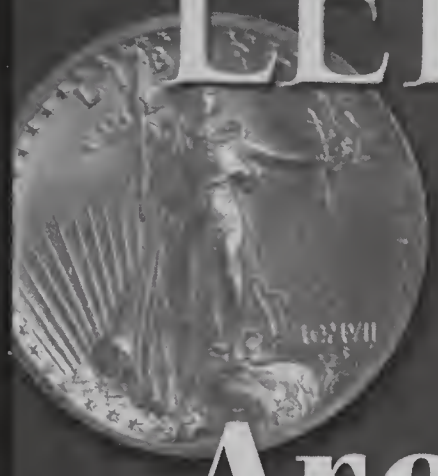

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

UNHERALDED SEMI-KEYS OF STANDING LIBERTY QUARTERS

By J.H. Cline

In this date-by-date analysis of semi-key standing Liberty Quarters, we begin with the 1917-D and close with the 1930-S.

1917-D Type 1 — Has a mintage of 1,509,200, yet the premium in today's market is much less than the "sister" 1917-S Type l ($1,400 less in MS65FH), although the magic "S" mintmark is always present. This Denver Mint coin is always struck much more sharply than the San Francisco Mint pieces. Figures from the two major grading services show more than twice the number of "D" Mint MS65FH's as there are "S" Mint MS65FH's. Yet the mintage of the Denver Mint is 443,000 less than the magic "S" Mint. Should they not be much closer in price?

1917-S Type 1 — Mintage: 1,952,000. This is the weakest overall strike of the 1917 Type 1 Quarters. There are several hundred thousand more "S" Mint pieces than the "D" pieces, but the pricing of the "S" pieces is higher — all the way down to Good grade. Should the "D" pieces not be worth more, or at least parallel in price? Could the mintage figures be incorrect or even reversed? I would not be the first to say that the San Francisco minted coins were less than perfect on this date and mintmark. This is a trait that has been true on most San Francisco minted coins compared to Denver and Philadelphia as well in the series.

Yes, I skipped the analysis of the Philadelphia Mint 1917 Type 1 for this article because there are not great mysteries of the date, with the exception of the 6 pieces of Matte Proofs, struck for Hermon MacNeil and his professors that were visiting from Paris, France.

1917 Type 2 — Not a great deal of mystery about this date and mintmark, as it has a huge mintage of 13,880,000. Despite this number, MS66 pieces and MS66FH pieces are very scarce! I would expect there to be many more — at least as many as the 1917 Type 1 since this is 1½ times the mintage of the Type 1. What happened? I think it was caused by WW I. High speed steel was being used for production of wartime materials and was not available for new die hubs. This would result in old dies being used much longer than they should have, which accounts for the many weakly struck and flat-strike pieces.

1917-D Type 2 — A strong candidate for the most underrated semi-key, especially in Full Head. The two major grading services, have a combined total of only 98 pieces in MS65FH, MS66FH, and MS67FH. Again, probably a victim of the high speed steel shortage. This one is missing from many of the higher grade Registry Sets. Years ago, in the Buddy Epson sale, he had one with a great Full Head, but the rest of the coin was very flat, lacking much definition overall.

1917-S Type 2 — This date and mintmark is a strong candidate for a ranking near the top of the list of underrated semi-keys. With a mintage of 5,552,000 vs the "D" Mint at 6,224,400 or 672,400 fewer pieces, it too is very scarce in MS65FH, MS66FH, MS67FH, and MS68FH. Total at the two major services: 97 pieces. The continued usage of the dies beyond their normal life expectancy of 25/35,000 strikes results in weaker and flatter strikes on this date. Keep an eye out for well struck pieces. They almost always command a premium price compared to normal strikes, especially at the major auctions. Even in AUFH, PCGS has encapsulated only 33 pieces in AU50/58FH. These AU pieces are trading for 3 to 4 times the non-Full Head prices (currently $600-$800 for a FH piece).

1918 — With a huge mintage of 14,240,000, this is not a sleeper. The exception would be the double struck pieces encapsulated by NGC and ANACS. Double struck on obverse and reverse. Very, very rare. The higher grades of the 1918 in MS66FH, MS67FH and MS68FH are still an excellent choice and worth your time and effort. There are 67 pieces combined at this writing. They do come with very strong strikes and many times with wire rims. Look hard!

1918-D — The mintage of 7,380,000 would have you expect to find many more great strikes than are available. In MS65FH, MS66FH, and MS67FH the total is only 102 pieces at the two major grading services. Characteristically the eagle's feathers on the breast are flat, and Miss Liberty's right leg is frequently flat from her knee to her hip. I have seen these flat strikes in both major grading services' holders in MS64FH and MS65FH. The better strike is worth the wait. Do some "foot" work. You will be glad you did. Buy the coin - not the holder. Plastic is cheap!

1918-S — A near classic in that it is so miserably struck most of the time. With a mintage of 11,072,000, this should have been nearly a common date with Full Heads. Yet the total of AUFH at PCGS is only 29 pieces. NGC has 27. This die was modified and struck the 1918/7-S - using the working dies resulted in the overdate pieces being mostly flat strikes and missing the definition needed for the FH designation: The 1918-S and the overdate are closely paralleled and that is why I mention it here. PCGS and NGC have a combined total of MS65FH, MS66FH, and MS67FH of 52 pieces. A much sought-after piece. Buy all of the sharp FH pieces you can find. I think you will be surprised.

1918/7-S — Collectors and dealers know this is one of the "Big Keys" of the series and is missing from most sets. If you are looking for a FH, you will be paying $35,000 in AUFH (give or take a bit)! There are some very sophisticated fakes available at times. Know what you are doing and/or buy it encapsulated by one of the major services: PCGS/NGC/ANACS. Stay away from the "off brands".

1919 — As you would expect with a Philadelphia strike, these pieces are nearly always good to excellent in strike, and an abundant number of Full Heads exist in MS65FH, MS66FH, MS67FH, MS68FH and MS69FH. An incredible 256 pieces have been encapsulated in these grades at the two major grading services. If you are looking for unheralded semi-keys in this series, you should look at other dates and mintmarks. The lone MS69FH that lives in Florida was in the Rothenberger Sale (Superior Jan. 1994) at which time it was an MS68FH. Truly the finest Standing Liberty Quarter we have seen, and yes, we placed it! To quote Superior: "Wow, wait 'til you see this one. Absolutely, utterly, gorgeous. So flashy and fresh". Good description. Enough said.

1919-D — I guess you would call this date and mintmark a semi-key until you consider the high grades: MS65FH, MS66FH, and MS67FH. At that point, the values bring it up to the key coin status. Yes, this one can be obtained for a few hundred dollars in lower circulated grades, which is where most collectors start. The top end is another story. In the last two years, one in MS66FH surfaced and fetched a $60,000 hammer price. With buyer's premium it came to over $70,000. If you include the MS64FH, MS65FH, and MS66FH there are only 36 pieces in the combined total of both major grading services. An AU piece of this date/mintmark with a Full Head usually goes for about $5,000. Worth looking into!

1919-S — Another one of the semi-keys in the series that crosses into the key date category when you add Full Head. Even in MS63/64FH the value jumps to $11,000 to $17,000. But, as is true with its sister date (1919-D) this one can also be obtained for a few hundred dollars in the lower circulated grades. An AU piece of this date/mintmark with a Full Head nearly reaches $5,000. Much sought-after, since the two major services have a combined total of 29 pieces in AU. To further prove my point, counting MS64FH, MS65FH, MS66FH and MS67FH (at both services) is a stingy total of 49 pieces. Wow! Wow!

*There is a new variety in the series that is the 1919-Speedy Head, discovered by Richard P. Stevens. I call it the Spiked Head variety, as there are rays about Miss Liberty's head that are raised (not die clash) with nothing on the reverse to create this. Looks as though it was damaged dies? or designed this way? A lengthy article about this variety appears in my 4th Edition book released in 2007, on pages 137-138.

1920 — Wow! With a shopping mintage of 27,860,000, almost doubles the next highest mintage (1918 is second with 14,240,000), it sure is one of the more common dates in MS65FH, MS66FH. Jump to MS67FH and both grading services have only slabbed 5 pieces total. If you are looking for a FH piece in MS65/66FH you have 144 pieces from which to choose, but still a very stingy 23 pieces in MS66FH - both services combined. You can expect to have a very well overall strike on this date and mintmark.

1920-D — Much underrated in today's market and a strong candidate for near the top of the list of unheralded semi-key coins. On top of that, it usually comes weakly struck overall, especially on the leg, thigh and lower torso. On the reverse, the eagle's breast feathers are flat or missing on many BU pieces. When you add FH to the grade, it becomes a key date in the higher grades. Even in AU55/58FH it still commands a premium of $1,100/$1,300. Please do yourself a favor and study until you make sure you can tell the difference between a 90% Full Head and a real Full Head. Get the coin slabbed by a major grading service. Stay away from internet "bargains" that are not slabbed. Very rare in MS66FH, MS67FH, and MS68FH with only 21 combined total pieces. Even in AU55/58FH, you still have only 55 pieces from which to choose. An excellent underrated date. Try to add some to your numismatic portfolio.

1920-S — You don't usually think of a coin with a mintage of 6,380,000 as a key date, and it is rated as a semi-key, but I think is crosses the threshold into "key" when it is MS63 and better. Of course, when you add Full Head to the description it jumps 10-15 times the non-Full Head status. At that point, I would call it a key. Encapsulation numbers counting the MS64/65/66FH's have a total of a mere 68 pieces at both major grading services. This of course does not consider the many break-outs where the insert was not kept and returned for removal from the reports. If you are trying to build an AU55/58FH set, you have only 19 pieces total at both services. Most of these are in sets residing in bank vaults across the country. Another one of the semi-keys in this series that commands about $5,000 in AU55/58FH.

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1921 — This is one of two dates that has experienced some rapid growth in the last few years. (1923-S is the other). I now think it has grown from a semi-key to a key date. When I first started collecting in the 1950's, this date could be purchased for as little as $3-$5. But, time changes things! Just look in the mirror. In today's market just G or VG is a few hundred dollars. Pressure has been on this one since the beginning. Philadelphia was the only Mint that struck 1921 Quarters, so if you collect only one a year, or a date set, you will need this one. With 1,916,000 mintage you might think it is more common than it is. Remember the "Roaring 20's" was a time of speakeasies, and quarter-beer got you change, so the demand on this date was increased. If you are a more advanced collector and collect in the MS65FH, MS66FH, or MS67FH range, you have a mere 95 pieces to choose from. Still an underrated semi-key date. Lots of room for future growth.

1923 — Not considered a key or semi-key except in higher grades and then a semi-key only if you add FH to the mix. As an example, there are only 55 pieces in MS65FH, but without the FH designation, the number encapsulated at both major services jumps to 544. Definitely a semi-key to key in MS66FH and MS67FH. Total of both major grading services for these drops to 37 pieces. Only 3 pieces (both services) in MS67FH.

1923-S — Definitely has risen to a key date from a semi-key status. Still very difficult to find. I think this one still has a great deal of growth potential. Beware! There are a few castings out there that are very good. They are usually grainy on the surfaces and the wire rim is usually a dead giveaway. The digits of the date are usually thin, but on the genuine pieces the date is usually much broader. Another classic date that is underrated.

1924 — With a mintage of 10,920,000 and with Philadelphia routinely turning out good strikes, there are no real secrets here with the exception of MS66/67FH. There are only 62 pieces total at PCGS and NGC combined in these grades from which to choose. There seems to be an abundance of Full Heads when you look at all grades: 540 pieces at both services.

1924-D — I would only call this one a semi-key as with so many of the Roaring Twenties mintages, but the exception the rule is when you add Full Head to the equation. Then it becomes $500 in AU to $18,000 in MS67FH. A good investment when you stay with Full Heads. Otherwise, the total for both services combined is 2,781 pieces - with and without Full Heads. Many broken dies around the date. Many have only about 1/2 of the date showing — choose carefully.

1924-S — A tough date, even though the mintage is adequate at 2,260,000. But, to find nice strikes in Full Head and rich-Full Head is tough. If you are a Full Head collector, it becomes even tougher. Frequently the Full Head lacks a bit in my opinion. High end Mint State pieces with Full Head are very minuscule in number at both major services with a mere 65 pieces in MS65/66/ and 67 Full Head. So even the AUFH is difficult to find as there are only 35 pieces total. Looks like an underrated semi-key.

1925 — Type 3. Recessed date. I have very little positive input on this date and do not consider it to be underrated: Like the 1917 Type 1, there are over 200 pieces in MS65FH, MS66FH, and MS67FH. It is still needed to complete your set.

1926 — A huge mintage of 11,316,000 would lead you to conclude that high-end Uncirculated pieces are plentiful, but this is not so. Add Full Head definition and you will find they are not. In MS65FH, MS66FH and MS67FH we find a total of 139 pieces at both services combined. Even the AUFH number is only 32 pieces. The AUFH pieces look, to me, like a great investment.

1926-D — The 1926D is not a key coin, but again when you add Full Head to the analysis, it changes dramatically. I think this is still an underrated key or semi-key. Even an MS63FH is worth about $8,000-$10,000 and an AU55-58FH will bring $4,500-$5,000. Combined total at both major services is 7 pieces. Wow! Try to find this one. Excellent investment in my opinion. MS64FH, MS65FH and MS66FH are nearly impossible to find.

1926-S — Long considered semi-key, this piece parallels closely the 1926-D, although the mintage is one million more than the "D" Mint. Usually struck very weakly, as is characteristic with most of the "S" Mints in the entire series. In MS65FH it compares very closely to the 1916 MS65FH even though the 1916 has a combined total of 111 encapsulated pieces, the 1926-S has only 25 pieces combined total at the two services. This is still a good investment in my opinion.

1927 — Another of the series with a high mintage and a high number of MS65FH, MS66FH and MS67FH pieces. 226 pieces combined total at the two services. It is also one of the strongest strikes in the series, and with nearly 12,000,000 pieces struck, the Full Head pieces are more readily available. All grades with Full Heads, both services combined is over 1,000 pieces.

1927-D — A much underrated date of the series with a price rating of 22nd, but a quantity rating of 4, shows it's usually not much of a sought-after date. Lots of flat strikes and not many Full Heads in the highest grades of MS65FH, MS66FH, and MS67FH. Both grading services combined show 116 total pieces. Two pieces for instance at NGC in MS67FH and none at PCGS. To find one with toes is next to impossible! The last star on the right is usually missing. Just a very weak overall strike in general.

1927-S — Big key of the series. Nearly non existent with Full Head. Only 3 pieces at PCGS and the same number at NGC. This is a $30,000+ coin when you can find it in Full Head. A few added mintmarks have surfaced with this date — usually added to a Philadelphia piece, but with a bit of comparison you can tell the difference. ANACS encapsulated one years ago, but it was discovered to be the added "S" and is no longer in a holder. If you purchase one, be certain it is in a PCGS, NGC or ANACS holder. Save yourself a big headache and lots of money.

1928 — Compare this date with the 1927-D in price rank and quantity rating. They are the same, so it should prove to us that the 1927-D is much underrated (maybe the toughest in the series). Re-read the 1927-D for this one.

1928-D — Mintage: 1,627,000. Less than the 1919-D which has a mintage of 1,944,000. This makes me wonder what happened. Why is the 1928-D not more scarce than it is? If the pieces in MS65FH, MS66FH and MS67FH are combined in total from the two major services, you have a scant 70 pieces. I would put this at #1 or #2 for potential increases. A much underrated semi-key! Only 4 pieces are the total for AU55-58FH.

1928-S — Large Mintmark. With 2,644,000 minted, you might think of this piece as somewhat scarce - but this is not so. Combined total of both grading services in MS65FH, MS66FH, and MS67FH is a whopping 354 pieces. Wow! I would say San Francisco finally got it together for this date. Many of the pieces are very weakly struck on the reverse. There are several varieties of the 1928-D. Large Date, Small Date, Large "S" over Small "s", "D" over "D" and "D" over "S". I cover this very extensively in the 4th edition (2007) on pages 180-184 if you care to read more about this.

1929 — This date closely parallels the 1930 which is the most common date with Full Head. 507 pieces in MS65FH, MS66FH, and MS67FH. Not much mystery here. A good Type 3 to find a nice selection of Full Heads.

1929-D — In our analysis of price rank vs quantity: price rank 12, quantity ranks it 5. Why is this one not more expensive? Perhaps many people are not informed about the low number of available Full Heads in MS65FH, and MS66FH (There are none in MS67FH). With only 72 pieces combined total, it seems wise to stock up and make yourself some good money!

1929-S — Many Full Head varieties in this date/mintmark. Huge number in MS65FH, MS66FH and MS67FH. 432 combined total at this writing. Not too many surprises here. If you want a "monster" Full Head, many exist here. Even 25 MS67FH pieces exist.

1930 — Wow and wow! What a whopping number of Full Heads from which to choose MS65FH, MS66FH, and MS67FH have a combined total of 1,121. One of the best things I could say about this date is that my good friend Kelly Kasper made a new discovery. The top of the sash on the top of the shield is missing completely on some. Probably a broken die or maybe faulty die. I have only seen about 6 pieces. Maybe this will catch on. Easily visible to the naked eye. Happy hunting!

1930-S — With a mintage of 1,556,000, which is less than the 1919-S by 280,000, why is this coin not rarer than its current price indicates? I guess most were kept and not spent. The 1919-S was spent and spent, and the number of Full Heads in MS65 or better is 468. I find that many of the older Full Head pieces would not pass muster and qualify in today's tougher grading for "FH" definition. The AU58FH sheds some light on this as only 27 pieces exist in AU55-58FH, both services combined.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Vol. XXXIII No. 5 May 9, 2008 Single copy price: $4.00

The Ten Most Desirable Dates in a Set of "CC" Gold Eagles

by Rusty Goe

Part One

As most collectors and dealers are aware, the Carson City Mint struck three denominations of Gold coins. And, while assembling complete sets of each denomination would be an ultimate numismatic experience, factors such as cost and availability restrict many collectors. So, if you had to choose just one denomination to pursue, which one would it be? Well, if considering availability, one might choose the $20 Double Eagles. After all, they struck more examples of this denomination (864,178) at the Carson Mint than they did at either of the other two, and consequently, more examples have survived. In addition, Double Eagles are much larger coins than the other two denominations, thus providing a greater field of vision to admire.

At the opposite end of the size spectrum, we have the $5 Half Eagles, with the second highest mintage total of 709,617 pieces. Ironically, the survival rate is not commensurate with that of the Double Eagles, with no more than 1.3% of the original total estimated to be extant. Other than a few dates, the availability factor is much lower for the Half Eagles than for the Double Eagles, a challenge which is very appealing to many collectors.

If a competitive pursuit is foremost in a collector's mind, none of the three denominations offers as much of a challenge as the "CC" Gold $10 Eagles, only 299,778 of which were coined. If not for a proportionately higher survival rate, estimated at 2.5% to 3.25%, a set of Eagles would be one of the toughest sets in all of numismatics to assemble (if it's not already).

Surviving Population Estimates For "CC" Gold Eagles*

Year	Low	High
1870-CC	70	80
1871-CC	120	150
1872-CC	80	100
1873-CC	75	85
1874-CC	260	300
1875-CC	100	120
1876-CC	140	170
1877-CC	70	80
1878-CC	75	95
1879-CC	65	70
1880-CC	285	330
1881-CC	500	580
1882-CC	220	250
1883-CC	260	300
1884-CC	270	300
1890-CC	550	750
1891-CC	3,400	4,500
1892-CC	700	1,100
1893-CC	310	350
	7,560	**9,710**

At first glance, the survivor estimates for the entire series can be deceiving, as they suggest that a relatively large aggregate number of examples are extant. But, upon closer examination, one will see that one date, the **1891-CC**, accounts for 45% to 46% of the total of all surviving "CC" Gold Eagles. And, if we add the 1892-CC, the percentage of survivors represented rises to 54 to 58. This leaves only 42% to 46% of the aggregate surviving total, or 3,400 to 4,110 examples, spread over the 17 remaining dates. Perhaps the table will provide a clearer perspective: *I have slightly revised some estimates from my book, *The Mint on Carson Street*. From this table, it's easy to separate the common dates from the scarcest dates. If a person desires an 1891-CC Gold Eagle, there's usually no problem procuring an example. On the other hand, collectors wishing to check off the toughest dates on their lists will encounter greater challenges.

Ten dates out of the nineteen in a set stand out as the most difficult to locate, and therefore, they are the most desirable dates in the "CC" Gold Eagle series. The sooner a collector obtains them, the sooner he/she breathes a big sigh of relief. Competition has clearly increased for these ten dates over the past eight years as more collectors have discovered the joys and rewards inherent in "CC" Gold coins.

In part one of this study, in chronological order, we will examine brief profiles of the first five most desirable dates in the "CC" Gold Eagle series. I have included original mintages, combined population totals for PCGS and NGC (Please keep in mind that population totals are often distorted, due to resubmissions and inaccurate data published by PCGS and NGC), rarity rankings, visual characteristics, highest graded examples, market value information, and miscellaneous comments.

In part two, scheduled for next month, we will conclude the study by profiling the second group of five dates.

1870-CC $10 Gold

Mintage: 5,908 **Rarity:** 1 **Population:** 76 **Highest Grade:** AU55

Of the three Gold denominations struck at the Carson Mint in its inaugural year of 1870, the Eagle is clearly the second rarest one, and just might be tied with the Double Eagle for the first position. Population figures from PCGS and NGC show 54 1870-CC Double Eagles graded, compared to 76 for the 1870-CC Eagle, but reliable sources report that another 15 to 18 **ungraded** 70-CC Double Eagles exist. We'll never know of course, unless these Double Eagles come out from hiding.

Only in recent years has the 1870-CC Eagle crossed the $100,000 barrier for its highest graded example ($115,000 in the *Old West* Collection, 8-11-06), whereas the 18 1870-CC Double Eagle reached that mark a decade ago, and has steadily risen past the $400,000 level. This leaves little doubt that the first-year-issue Eagle has years of steady price appreciation ahead.

A big challenge for picky collectors is the poor eye appeal available in most issues of this date. There are two attractive AU-55 specimens in collector hands, and a small sampling of desirable AU-50, XF, and VF pieces, but many examples in all grade ranges display excessive bagmarks and evidence of cleaning. Luster is generally lacking (or nonexistent) on most examples, and except for a few high-end specimens, the surface colors range from a combination of drab golden-oranges and light coppery-bronze-yellows to all shades in between. The object is to obtain the piece with the least amount of negative characteristics and the most pleasant color for the assigned grade.

One thing to keep in mind is that unless you're fortunate to acquire one of the choicest examples of this date, you'll have to bend your grading standards for the privilege of owning this key to your set. Collectors content with lower grade, Circulated examples, say in Fine or Very Fine, will usually be pleased with the bargains they receive, as price levels in this range seem greatly undervalued in today's market.

1871-CC $10 Gold

Mintage: 7,185* **Rarity:** 8 **Population:** 121 **Highest Grade:** MS62
*Some sources report 8,085

This is one of the most curious dates on our list. Its original mintage is only 1,277 (2,177 according to some sources) higher than the 1870-CC Eagle, and a surviving population of perhaps 50 to 70 more pieces, yet it sells for a fraction of the price. There's no doubt it is still a very scare date, yet it's considered by some experts to be the second most common "CC" date from the 1870s. Actually, it's probably the third most common date from that decade, ahead of the 1874-CC and 1876-CC.

While many examples of the 1871-CC Eagle share the overall unflattering characteristics of other "CC" Gold coins, there are a fair number that possess rather pleasing eye appeal. Let's just say that if there were some 1870-CC Eagles that looked like some of the high-end 1871-CCs, collectors would be quite pleased, and prices for those 70-CC examples would soar.

You'll find 1871-CCs with the golden-orange color typical of many "CC" Eagles, and you'll see some examples with a light golden yellow

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current trading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

color. So much of it, of course, depends on how, and to what degree, people dipped the coins. The strike on most 1871-CC Eagles is exemplary when compared to other dates from the 1870s, although just as with other "CC" Gold, you'll see occasional weakness here or there.

Prices in all grades seem to be very reasonable in today's market, with **choice** AU specimens wholesaling for $25,000 to $30,000. If you can find an example pleasing to your eye in any grade, chances are you will pay less than its true value. In other words, bargains are waiting on this date.

1872-CC $10 Gold

Mintage: 5,500* **Rarity:** 6 **Population:** 100 **Highest Grade:** AU58
*Some sources report 4,600

How does a date that rarely appears in auctions or on the bourse floor wind up with a population of 100 coins? This is the mystery of the 1872-CC Gold Eagle. Other than the harshly cleaned and otherwise numismatically abused examples that surface from time to time, collectors rarely see this date for sale.

Even the *relatively* problem-free specimens that show up occasionally often fail to impress in terms of color, luster, and strike. AU examples are the finest available, and generally these display soft strikes on the high points of the obverse and on the central portion of the Eagle's breast on the reverse. It's difficult to pin down general color characteristics for this date, because most examples have been cleaned to one degree or other, resulting in variations of golden-honey, dark golden-orange, and bright golden-yellow.

The goal is to find the "best of the worst." In other words, you will again bend your traditional grading standards and select the piece with the least problems. More than anything, you'll want to avoid heavy scratches and deep gouges. And, you'll want to select an example with the nicest color, according to your eye.

With all that said, it still appears as if this date is undervalued according to current levels, especially if you can find an example in XF or AU that in anyway seems pleasing to you. Two AU-55 examples, one PCGS and one NGC, sold in August 2006, and in January 2007, at auction, for $34,500 each, and were well received by their new owners. A few better-than-average XF-45 pieces sold recently for attractive prices around the $12,500 level.

1873-CC $10 Gold

Mintage: 4,543 **Rarity:** 3 **Population:** 79 **Highest Grade:** AU55

Any "CC" coin dated 1873 is special. There's just something about that year. Not the least of which is attributable to the passing of the landmark Coinage Act.

Of the three Gold denominations struck at the Carson Mint in 1873, the Eagle is the most elusive, slightly eclipsing the Half Eagle. Collectors rarely have the opportunity to choose more than one high-grade AU example of this date in any two- to three-year period. Even examples in desirable grades of VF to XF are difficult to locate.

The problem with most 1873-CC Eagles is similar to that of other dates from the 1870s, a lack of eye appeal. Since no Mint State examples have been reported, collectors desiring top-grade specimens must choose from the paltry assortment of AU pieces. Within this category, a few pieces stand out, and deserve the healthy premiums required to obtain them.

Prices have continued to escalate for examples of this date in all grades over the past couple years, after reaching a plateau during the early years of the 21st century. For example, in 2002, AU-50 specimens were available for less than $20,000, and XF-45 coins sold for less than $13,500. Yet, at a Stack's sale in January 2007, an 1873-CC Eagle graded AU-50 by PCGS brought $43,700; and in September 2007, an NGC-graded XF-45 coin sold for $27,600 at a Superior sale. In early 2008, an AU-53 specimen reportedly sold for $50,000 in a private treaty transaction.

If this trend continues, it probably won't be long until one of the finest-known examples approaches the $75,000 mark. If a Mint State 1873-CC Eagle were to surface, the record price established would surely send shockwaves across the market.

1875-CC $10 Gold

Mintage: 7,715 **Rarity:** 7 **Population:** 120 **Highest Grade:** MS63*
*Unverified. Highest grade could be MS-62, or even AU-58

While overall production spiked at the Carson Mint in 1875, Gold Eagle output dropped more than 50% from 1874's totals. This low-production trend in Gold Eagles continued for the remainder of the decade. The results of course, are the rarities that emerged.

Surprisingly, more examples of 1875-CC Eagles have surfaced than were originally estimated to exist, though the survival rate is still only an anemic 1.6%, or so. To compound matters, most examples of this date rate very low in terms of eye appeal.

A few AU pieces have been observed with better-than-average strikes, attractive orange-gold color, and approximately three-quarters, or so, luster remaining. Unfortunately, most examples exhibit mushy details on the high points on Ms. Liberty and on the Eagle, excessive abrasions, unoriginal color, and "dippy" luster. Occasionally, pieces in lower grades such as VF, display the normal appearance generally encountered on circulated coins, and as such, are very desirable, especially when price is considered.

There is a wholesale value of $6,900 for XF specimens of this date, although collectors should prepare to pay at least double that amount for **choice** examples in that grade. Consider, for instance, the piece graded XF-40 by PCGS that sold for $15,525 in Superior's September 2007 sale. Choice AU pieces have already broken the $35,000 barrier, and if one of the AU-58 specimens surfaces, $50,000 would not seem unreasonable. Please keep in mind that there are hideously unattractive examples in all grades, which surface occasionally that sell for discounted prices.

A brief mention must be made about the appearance in NGC and PCGS census and population reports of Mint State 1875-CC Eagles. Sometime after 1999, NGC began listing an MS-63 specimen in its census report, and late in 2005, PCGS added an MS-62 coin to its "pop" report. The author has not been able to verify the existence of such Mint State examples of this date. Indeed, it would be a breaking news story in the coin market, and it would be interesting to see what price such a high-grade example would fetch. (If the owner of an MS-63-graded 1875-CC Eagle reads this article, I invite this person to please consider sharing with us his/her wonderful find.)

This concludes part one. It gives us a good start on our quest to evaluate ten treasured Gold coins from the Carson City Mint. Please look for part two in next month's *Monthly Supplement*.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems), will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

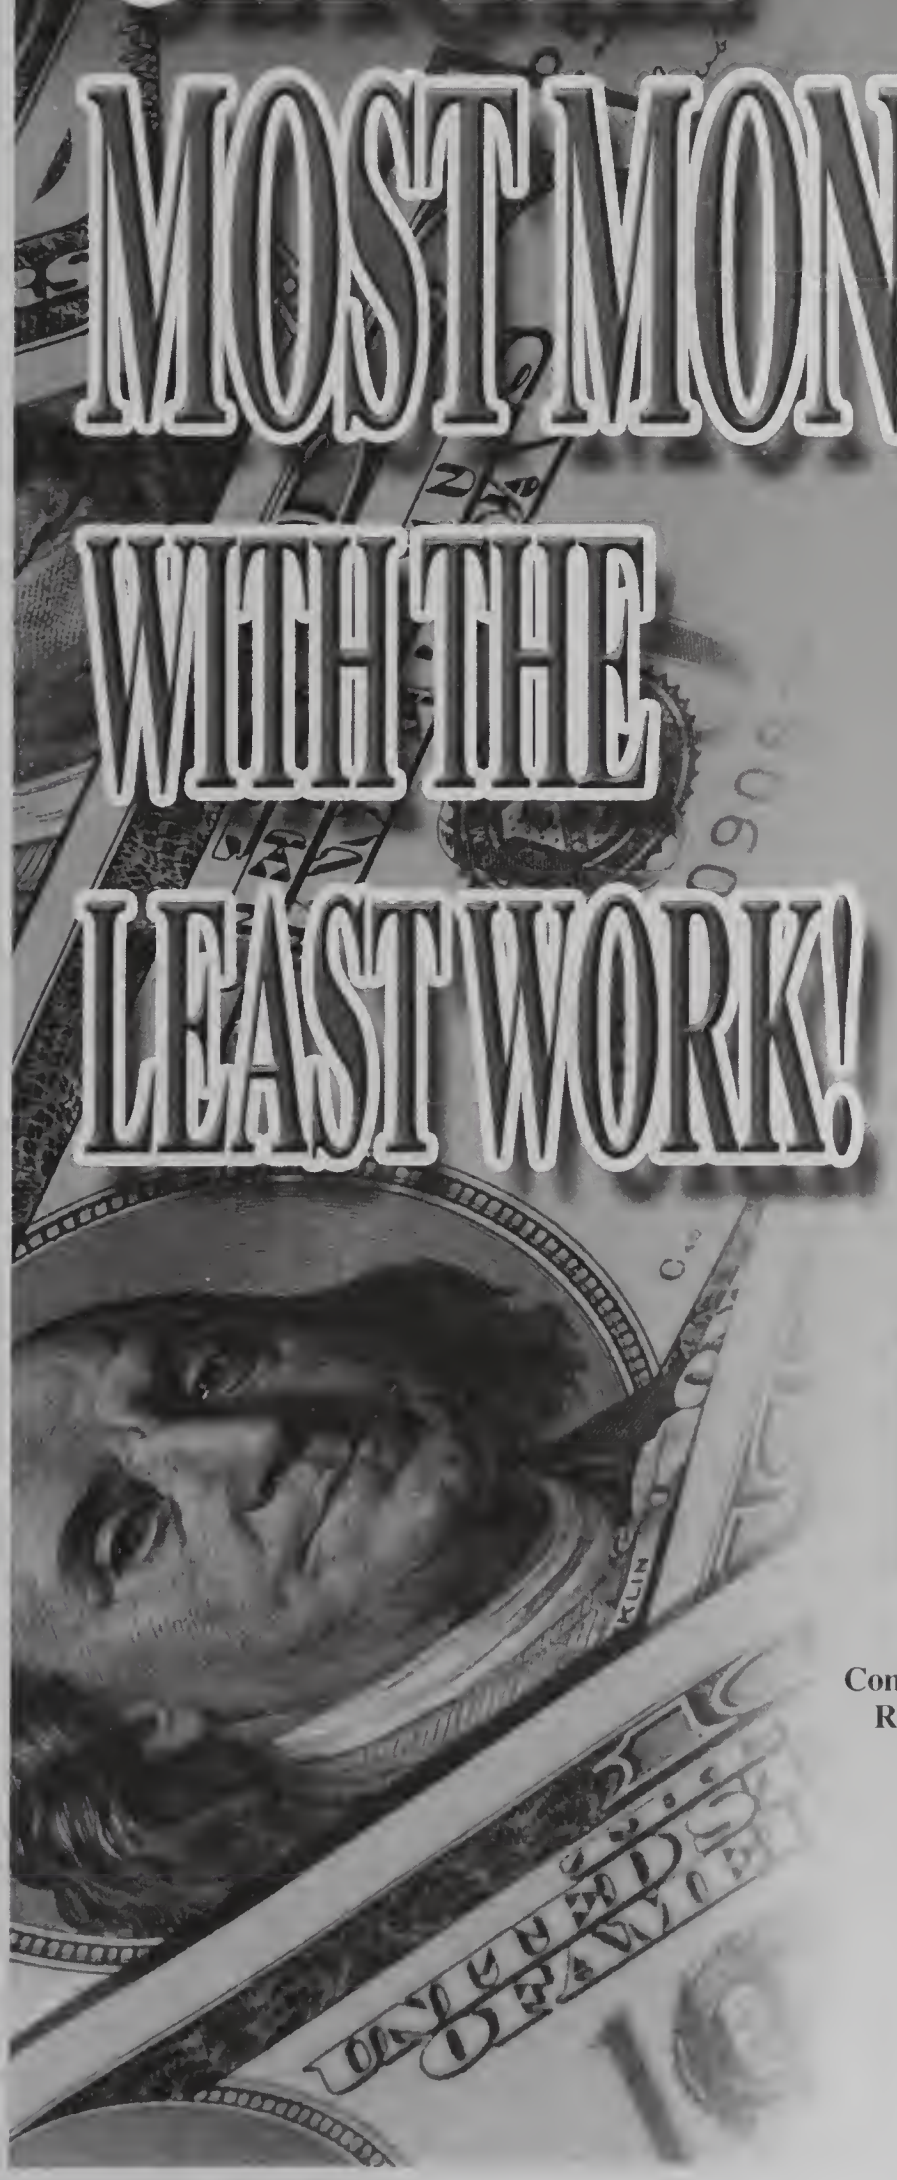

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

GET THE MOST MONEY... WITH THE LEAST WORK!

Spectrum is expert at trading coins. After all, we're one of the premier coin companies in the industry. At Spectrum, trading coins is our life's work. And that's why dealing with Spectrum means more money and less work for you!

Money and skill are probably why people come to Spectrum in the first place. Everyone knows that Spectrum has world class coin experts, buys the largest coin deals, has the most cash available to buy coins, etc., etc. But do you know that our service and integrity are why people come back again and again and again? ***We're more determined than ever to make sure our customers continue to enjoy a higher price advantage.***

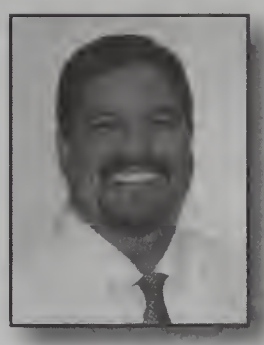

Spectrum realizes that you have something significant at stake when you go to sell your coins. We understand that you want to get top dollar, and have the transaction take place quickly, conveniently, and fairly. At Spectrum, we will accommodate your every need. As one customer said:

"I doubt that you will remember me, but it was my pleasure to have worked with you on the sale of some gold dollars several years ago.

I'm convinced after that sale to you that I'll get an honest and probably the best offer than I would from any other coin dealer..... You also made the transaction so easy that I'm back with more!"

With Spectrum's depth of experience, unlimited cash resources, and commitment to customer satisfaction, we invite you to call Spectrum. Let us help you realize the most money for your coins. Give us an opportunity to serve you by calling toll-free **888.828.2646**. Call Spectrum today.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Vol. XXXIII No. 6 June 13, 2008 Single copy price: $4.00

The Ten Most Desirable Dates in a Set of "CC" Gold Eagles

by Rusty Goe

Part Two

Last month we examined five special dates in the "CC" $10 Gold Eagle series. This time, we'll focus on the second half of our list of the ten most desirable dates.

1876-CC $10 Gold

Mintage: 4,696 **Rarity:** 9 **Population:** 172 **Highest Grade:** AU58

What can explain the disproportionately high survival rate of between 3.3% and 3.6% for 1876-CC Gold Eagles (only the 1879-CC featured in this study has a higher rate at 3.9%)? Perhaps people saved more of them because it was the nation's Centennial year. We'll probably never know.

Yet even with the relatively higher number of extant examples, there has never been a Mint State specimen to surface. While several attractive AU pieces and a handful of nice VF to XF pieces exist, the majority of 1876-CC Eagles aren't very appealing. That's a bit strange, too, since it appears as if Gold Eagle production standards from that year were stricter than in preceding years.

Most of the blame for unattractive specimens probably lies with the abuse administered by careless individuals over the years. Cleanings, dippings, scrubbings, rim filings, applications of artificial coloring, and other numistmatically abusive methods take their toll on coins, and, certainly, many 1876-CC Eagles are victims of such procedures.

This partly explains why you'll see specimens with odd variations of dark-golden-orange, green-yellow-orange, and pink-coppery-yellow colors, and with excessive hairlines in the fields. The heavy contact marks, of course, are usually the result of extended circulation, not from collector abuse, but they certainly don't enhance the eye appeal.

If you're fortunate to find an example with relatively few marks, no edge nicks, nearly original surfaces, and sufficient detail for the grade, don't hesitate paying a premium to own it. And, if it's one of the finest-known specimens you desire, you'll need to place your name on a waiting list, because the demand is intense.

The *Coin Dealer Newsletter* lists wholesale Bid at $5,000 and $13,250 respectively, for XF40 and AU50 pieces. Yet, consider the PCGS XF45 example that sold for $10,925 in Stack's November 2007 sale, and the NGC AU55 example which brought $28,750 in Bowers and Merena's August 2007 sale. And, prices aren't getting any cheaper, either.

1877-CC $10 Gold

Mintage: 3,332 **Rarity:** 4 **Population:** 75 **Highest Grade:** MS65*
*Unverified. Is most likely AU58

This is the first of the three extremely low-mintage years, and as such, one of the all-time most desirable dates in the "CC" Gold Eagle series.

Even Double Eagle production sharply declined at the Carson Mint in 1877, as workers concentrated on delivering the last big output of subsidiary Silver coins during that institution's most prolific years.

For some reason, 1877-CC Eagles didn't receive their deserved respect from collectors until only recently. This seems strange in light of the date's recognized low mintage. But for some reason, the numismatic community perceived the survival rate to be much higher than what we now know. One thing that experts didn't fail to notice, however, was how scarce 1877-CC Eagles were in the highest grades, which are generally AU55 and very rarely, AU58.

One observation is in order. Sometime around early 2007, PCGS added an MS65 to the 1877-CC's pop totals. Ordinarily, this would have been headline news in the coin hobby, yet not a single mention of it appeared in any numismatic publication. The author can't verify the existence of an 1877-CC Eagle in MS65 condition, and just as with the reported 1875-CC Eagle in MS63, would appreciate a confirmation if one exists. Until then, AU58 will stand as the highest grade known.

Based on this fact, it didn't surprise experts when a high-end AU 1877-CC Eagle pushed the $42,000 mark in 2000, or when AU53 and AU55 specimens brought $27,600 apiece in 2006 and 2007. What's surprising, however, is that eye-appealing XF examples have sold for less than $12,000 at auction in recent months. Prices in all grades seem to have considerable upside potential.

The challenge, of course, is finding examples in any grade with decent eye appeal. For AU pieces, the goal is to find examples with light golden-orange or burnt-orange color that aren't victims of over-dipping and that don't display heavy abrasions. For lower Circulated grades, say in VF to XF, it's great to find examples with original surfaces, which still possess adequate detail on the portrait and devices. The above-mentioned coins are difficult to locate, but are certainly worth high premiums when opportunities arise.

1878-CC $10 Gold

Mintage: 3,244 **Rarity:** 5 **Population:** 97 **Highest Grade:** MS63*
*Unverified. Is most likely AU58

The production slide for Eagles continued in 1878 at the Carson Mint, with 88 fewer pieces struck than in the preceding year. Consequently, one would think that 1878-CC Eagles are scarcer than 1877-CCs. Yet, this simply isn't true. For years, the estimated survival rate for both dates stood locked in a dead heat, but recent population figures suggest that 1878-CC Eagles are more plentiful than 1877-CCs. And, by *more plentiful*, we're talking about maybe twenty pieces, if that many. As for survivors in high grades (AU55 to AU58 range), the 1877-CC is scarcest, but not by much.

NGC recently added an MS63 1878-CC Eagle to that date's census totals, causing more head scratching. This suggests that somewhere out there, according to PCGS and NGC, there's one 1875-CC Eagle in MS63, one 1877-CC in MS65, and one 1878-CC in MS63. But until these pieces surface, we'll have to use the realistic highest grades for each date.

Similar to other dates from the 1870s, the surviving 1878-CC Eagles don't offer much in terms of eye appeal. Oh, occasionally, you'll encounter a piece that stands head and shoulders above others in its grade category, and naturally, you'll pay a strong premium to own it.

The color combinations available for 1878-CC Eagles range from close-to-original golden-orange, to dipped-out, light coppery-yellow, with some olive greens and burnt oranges added for good measure. Abrasions, as with most circulated "CC" Gold coins, are always a problem with 1878-CC Eagles. And, there's one diagnostic found on this date that sometimes causes people to perceive a more severe problem. An eighth-inch raised streak of metal extends across the middle of Liberty's lower neck, which some observers occasionally misinterpret as a scratch. This is "as struck," however, and not a detraction. They're usually numerous cuts, small gouges, scratches, and hairlines to contend with, which overshadow any visual effect the raised die line on the neck presents.

Prices have begun to reflect this date's true rarity in recent years, especially on the most well preserved specimens. For example, a lovely piece graded AU55 by PCGS sold for $39,100 at an ANR sale in 2006, and in September 2007, at a Superior sale, an exceptional PCGS AU50 specimen, in an older green insert holder, brought $29,900. To emphasize the significance of eye appeal when selecting "CC" Gold coins, this last piece realized more than did a low-end NGC AU55 example, which brought $25,300 in Heritage's 2008 F.U.N. sale. Yet whether low-end, mid-range, or high-end for the specific grades, there seems to be plenty of upside for all 1878-CC Eagles.

1879-CC $10 Gold

Mintage: 1,762 **Rarity:** 2 **Population:** 70 **Highest Grade:** MS62

We've finally come to what is probably the **most undervalued** date in the "CC" Gold Eagle series. Collectors are well aware of how you can t

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*) both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc. 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

casually dismiss dates with extremely low mintages; and if 1,762 doesn't qualify as a low-mintage, what does?

At this point in time, in spite of an unusually high survival rate (3.9 %), the 1879-CC Eagle is the **scarcest** date in the series, based on population totals. The 1870-CC will probably always hold #1 status, but there's no reason why the 1879-CC can't share top honors.

In any discussion regarding the populations or the estimated survival rates of "CC" Gold Eagles, you must consider the availability (or unavailability) of visually appealing specimens. For, clearly, only a small percentage of certified examples possess appearances most collectors consider attractive.

So, of the 70 or so 1879-CC Eagles certified, how many display eye appeal desirable to discriminating collectors? It's hard to say, but viewed in this manner, the rarity factor increases substantially for choice specimens. This same quantitative analysis is applicable to all dates of "CC" Eagles from the 1870s. It's one thing to say there are 70, 90, or 100 extant examples, but quite another to estimate how many pieces pass eye appeal inspection.

Still, everyone's not afforded the opportunity to choose from the finest examples in each grade range, which leaves many collectors with subpar specimens as their only option. No more is this evident than with 1879-CC Eagles. There's a true shortage of nice examples of this date in any grade. Detractions generally encountered are unsightly contact marks, weak details on the high points, subdued luster (if any at all), and unnatural combinations of colors, ranging from olive-honey-gold, to artificially bright yellow-orange-gold. When choice examples aren't available, collectors must choose coins with the least number of problems. Perhaps the abrasions are severe, but the color looks almost normal. Or maybe, the color appears artificial, and the details are a bit mushy, but the surfaces are relatively free from bothersome marks. At times such as these, you consider the best trade-offs.

One very fortunate collector paid the price to own the only known Mint State example: a splendid piece, graded MS62 by NGC (This one, the author *was* able to verify; and the numismatic press did rightly herald its existence, as it should any such major discovery).

Before that, the exquisite *Bass* specimen, sold by Bowers and Merena in their October 1999 sale for $48,300, ruled supreme in the condition census. This might be the same piece housed in a PCGS AU58 holder today, or perhaps in one of the five AU58 specimens listed in NGC's census report.

Although the *Bass* coin established a new price level back in 1999, and the MS62 specimen brought over $125,000 a couple years ago, the value of 1879-CC Eagles is far from its true potential. Consider for example, three other sales of this date in high grades that occurred in recent years. A very pleasing example graded AU55 by PCGS brought $32,200 in ANR's *Old West* sale in August 2006; an acceptable PCGS AU50 piece realized $27,600 at a Stack's sale in January 2007; and an attractive AU53 coin, also graded by PCGS, sold in a September 2007 Superior auction for $35,650. These prices are half or even one-third of what comparably graded 1870-CC Eagles bring. In fact, in that same ANR August 2006 sale, an 1870-CC Eagle graded AU55 by PCGS, set a new record at $115,000, which was more than 3 ½ times what the AU55 1879-CC Eagle fetched.

And while there are bargains waiting for buyers of 1879-CC Eagles in the AU grade category, similar opportunities await buyers desiring examples in VF to XF.

The challenge of course is finding visually appealing coins, although some collectors are satisfied with rejects at much lower prices, just for the privilege of owning such a rare date.

1882-CC $10 Gold

Mintage: 6,764 **Rarity:** 10 **Population:** 247 **Highest Grade:** MS62

We come to the tenth rarest date in the group, which would deserve key status if it were in another coinage series.

After producing the highest quantity of Eagles in its 13-year history in 1881, the Carson Mint reduced output by nearly 72% in 1882, which resulted in the eighth lowest mintage for this denomination. This was due in part to the resumption of Double Eagle production in 1882 after a two-year hiatus. Additionally, Half Eagle output surged by 600% that year, which altered the distribution of Gold bullion among the Carson Mint's three denominations.

A slightly higher-than-average survival rate has left us with more 1882-CCs extant than might be expected. Otherwise, this date might rank with the 1871-CC and 1875-CC in terms of rarity.

Of the surviving specimens, the overall quality appears to be superior to most "CC" Eagles from the 1870s. Typical problems exist of course, such as improper cleanings, excessive abrasions, weaknesses in detail (especially on Liberty's curls), subdued luster, and odd variations of surface color. But, there are greater quantities of desirable AU specimens from which to choose than there are from other dates. Even many XF examples possess the eye appeal collectors crave. The author has seen dipped XF and lower-grade AU pieces which display hairlines that are still more attractive than similar "CC" Eagles from the 1870s.

Before you get too optimistic though, keep in mind that possibly half of the extant 1882-CC Eagles lack universally accepted eye appeal. And the Mint State population isn't much higher than that of the 1870s' dates. In fact, PCGS still hasn't graded an 1882-CC Eagle in Mint State, while NGC lists three examples.

A lone MS62 specimen dominates the condition census. This amazing coin possesses highly reflective proof-like surfaces, which unfortunately are slightly subdued because of past dippings. The strike on this exceptional specimen is as sharp as on most "CC" Eagles from the 1890s. The heavy presence of die polishing lines, especially on the reverse, suggests early-strike status. The special qualities of this example help explain why it set a new price record of $41,400 for the date at ANR's August 2006 *Old West* sale.

More often, Choice XF and AU specimens of this date sell for prices much closer to what *CDN* and other guides suggest. This is good news for collectors desiring a nice 1882-CC Eagle, and it is reflective of how undervalued is this date. The higher population totals are deceiving, because in the end this is a very low mintage date, and it's unlikely that undiscovered quantities exist.

This concludes our brief glimpse of one of the most desirable ten-packs of coins in the field of numismatics. When you consider that the aggregate population of all ten dates is only 1,157 (not adjusted for resubmissions), you get a sense of the real rarity of this group.

Any collector who acquires these ten dates will feel the thrill of ascending a mountaintop. And then certainly, if the goal is to acquire the other nine dates needed for a complete set of "CC" Eagles, the collector can truly say, "It's all downhill from here."

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

Capped Bust Quarters Large Size

by Duncan D. Lee

One of my favorite coin Types is the Large Size Capped Bust Quarters minted from 1815 to 1828. Compared to their contemporary denominations, the Silver coins from the Half Dime to the Half Dollar, the Large Size Capped Bust Quarters are significantly rarer. A casual review at a major coin show bourse will indicate multiple quantities of Half Dollars, Half Dimes and even Dimes of the same Type but very few of the Large Size Capped Bust Quarters. The Quarters of that period were the workhorse of the economy, and the vast majority of the Quarters circulated until they were unrecognizable or, more often, melted for their intrinsic value in Silver.

This relatively short-lived series contains only eleven different dates. Yet, the Large Size Capped Bust Quarters offer a true numismatic challenge to the serious collector and a fertile field for the variety collectors. Over the past 20 plus years, I have been fortunate to handle practically every major known variety as well as several of the key dates, including two **Original** 1827/3 Proof Quarters. As a collector there is something magical about the familiar denomination that has been part of our culture for more than 200 years. In terms of value, this Type is grossly undervalued across the board but especially so in the mid-grade range from XF to MS-62. A complete date set of the business strikes, consisting of just ten coins, presents a formidable challenge, and offers the possibility of an excellent return on one's investment of time and money.

The **Large Size** Capped Bust Quarters were officially last minted in 1828. No Quarters were struck after 1828 until 1831 when the obverse design was slightly modified and struck in a closed collar resulting in a more consistent diameter and increase in thickness. The reverse design was maintained **without** the Motto, "E PLURIBUS UNUM." Although the changes were intended to be minor, the net combined effect was a dramatically altered new coinage.

The official mintage record is provided for comparison purposes only. The Mint, back in those days, did not produce coins that were necessarily dated in the year they were struck. Further, large scale melting of coins was common both by the Mint as well as the public, reflecting the volatile nature of the precious metal prices even back then. The combined population reports from PCGS and NGC are used to indicate the relative rarities of all of the dates. When the major varieties were separately listed, the dates were all combined. The most recent population reports currently available to the author are being used in making this relative ranking.

1815
Rank: 6th
Graded: 220
Mintage: 89,235

This is the first year of the Large Size Capped Bust Quarters and is popular as such. Overall this date is not particularly difficult to locate but is rare when found well struck. No Proofs are known to exist. Curiously, counterstamps with an "E" or "L" above the head are found on this and some 1825 issues.

1818
Rank: 12th
Graded: 863
Mintage: 361,174

After a two-year hiatus, the Mint went all out to produce one of the most common dates of the series. The 1818/5 is considered a rare variety but is actually much more available than indicated. This popular overdate variety is not always attributed properly. At least one Proof specimen has been reported but not verified. No Proofs have been graded by the major services.

1819
Rank: 8th
Graded: 252
Mintage: 144,000

This is another date that is relatively available to the collector today. However, well-struck and attractive pieces are still very difficult to find. Two major varieties exist: one with the Small 9 and another with the Large 9 in the date. Both are about equally available, but the Large 9 is slightly rarer. Proofs are unknown.

1820
Rank: 7th
Graded: 240
Mintage: 127,444

Large and Small 0 in date offer two popular varieties. Both are about equal in rarity overall. Proofs are extremely rare with 5 to 6 known.

1821
Rank: 10th
Graded: 366
Mintage: 216,851

Another tough date to locate despite its higher mintage. Proofs are extremely rare with less than 8 known to exist.

1822
Rank: 5th
Graded: 200
Mintage: 64,080

This is an **underrated** issue and very difficult to locate currently. There is a Blundered variety with the 25/50 in value on the reverse at 25C. This over denomination variety is very rare and very underrated. Proofs are known for both the "normal" reverse and at least two with the Blundered reverse die 25/50. Less than 12 total in Proof are estimated.

1823
Rank: 3rd
Graded: 24
Mintage: 617,800

This is the rarest non-Proof issue for this short-lived series. Only one specimen has been graded Mint State by either service. All 1823 Quarters are actually overdates with the 2 showing clearly under the 3 in the date. There is only one Proof known of this date.

1824
Rank: 4th
Graded: 124
Mintage: No Record

While there are no mintage records, there is a mintage estimated at 24,000. This is another overdate with the 4 struck over the 2. This date is popular with collectors and has been hoarded by a few. Although considered in the past to be less rare than the 1822, I believe, and the population reports support this, the 1824 is much rarer than the 1822. This date is unique in Proof.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin
EDITOR Keith M. Zaner
PUBLISHER Shane Downing
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1825

Rank: 11th
Graded: 473
Mintage: 168,000

This is the second most common of the Large Size Capped Bust Quarters. All are overdates. There are two major varieties: 1825 over 1822; and 1825 over 1823/4. The so-called 1825/4/3 is the most common of the two. Although a few examples of this date were offered as Proofs in the past, most have been determined to be Prooflike business strikes. Currently, no Proofs have been so attributed by the major grading services.

This is the rarest issue for this limited series and is recognized as a fabulous rarity. In the past, this Proof only Quarter was grouped with other major rarities like the 1804 Draped Bust Dollar, 1913 Liberty Head Nickel and the 1885 Trade Dollar. Although the Mint records indicate that 4,000 coins were struck, no business strikes are known to exist. The coin in the Eliasberg's estate was reportedly found in circulation and is the only known example in circulated grade (a Very Fine). However, that coin is considered by most observers to be a circulated Proof. Accordingly, only 10 Proof specimens have been identified to date. Of the ten confirmed specimens, one is impounded in the Smithsonian Institution in Washington D. C., and one, the H.O. Granberg specimen, has been missing since the robbery at Yale University. Accordingly, only 8 different pieces are available to the collecting fraternity. Yet, the combined population report shows a total of 12 graded, including two in VF! Obviously, there are several resubmissions, and this exemplifies why the population reports must be taken with some measure of circumspection.

1827 Original

Rank: 1st
Graded: 12
Mintage: 4,000

1827 Restrike

Rank: 2nd
Graded: 25
Mintage: ~ ~

Capped Bust Quarters Large Size Basic Set

7/08	VG Bid	VF Bid	XF Bid	AU Bid
1815	$92	$310	$1,385	$1,825
1818	$80	$275	$1,250	$1,675
1819	$80	$275	$1,250	$1,675
1820	$80	$275	$1,250	$1,675
1821	$85	$285	$1,300	$1,725
1822	$90	$300	$1,285	$2,500
1824	$180	$700	$2,700	$4,300
1825	$85	$275	$1,250	$1,675
1828	$80	$275	$1,250	$1,750
	$852	$2,970	$12,920	$18,800

Due to the rarity of the 1827/3 Original Quarters, the Mint, apparently in various subsequent years starting around 1858 to 1860, struck the infamous Restrikes using a different reverse, most likely in error. The Restrikes, all in Proof, used a reverse from 1819 with a Flat Based 2 in the denomination on the reverse at 25C. All Originals have the Curved Base 2. An example of this date is traditionally included in a date set despite its Proof only status, similar to that of the 1895 Proof Morgan Dollar.

1828

Rank: 9th
Graded: 298
Mintage: 102,000

The final year of this short-lived series, 1828, is also relatively available to the collecting public. There is one underrated variety that combines this date with the reverse of 1822 with the over denomination on the reverse (25 over 50). This is a popular variety that is not as rare as the 1822 with the same reverse but is nevertheless rare and underrated.

Date Set
1815
1818
1819
1820
1821
1822
1823
1824
1825

Major Variety Set	
1815	1822 25/50 Reverse
1818	1823/2
1818/5	1824/2
1819 Small 9	1825/2
1819 Large 9	1825/4/3
1820 Small 0	1827/3 Original
1820 Large 0	1827/3 Restrike
1821	1828
1822	1828 25/50 Reverse

In theory, completing a basic 9-piece Circ set of Large Size Capped Bust Quarters will not be difficult. What is a challenge will be attempting to assemble a problem-free, Circ set matched in that desirable original silver grey at or near present Bid. The effort will assuredly yield the owner a valuable 19th century presentation. Those sets in VG or VF will most likely be within the grasp of the average collector, whereas the XF and AU assemblies will be the charge of the more well-heeled enthusiast. However, given the lower population report for certified coins, perhaps no more than 56 slabbed sets could be completed in Good to Very Good and as few as 47 sets in XF-AU, as seen in the chart below.

Capped Bust Quarters Large Size
NGC & PCGS Combined Population

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

2005 & 2006 SILVER EAGLES

NGC CERTIFIED ✦ MINT STATE 69

LIMITED OFFER BELOW OUR CURRENT DEALER COST

Coin image not to scale.

Coin image not to scale.

FREE priority shipping, handling & insurance

Silver Basis: $16.85 • Limit 1 each per household

Known as the "most popular coin in U.S. history" the American Silver Dollar is a historical and artistic masterpiece. American Eagles don't just capture our American heritage, as bullion coins, they also equip you for volatile markets through hard asset diversification.

- **Exquisite symbol of monetary freedom & liberty for centuries**
- **The Numismatic Guaranty Corporation [NGC], is a preferred independent grading and authentication service of Universal Coin & Bullion. Each coin encapsulated & sonically sealed in a tamper-evident holder to preserve their sharp relief & exquisite detail.**

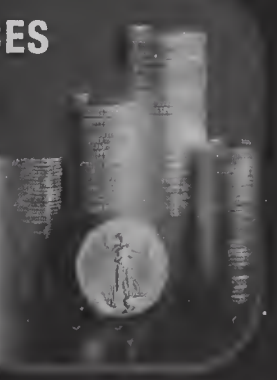

And with silver, gold and platinum all trending higher, acquiring sets of American Eagles is the smart way to capture history while enjoying the benefits of precious metal diversification..

- **Each coin contains one full ounce of 99.9% pure fine silver**
- **Official investment-grade silver bullion coin whose weight, content & purity are guaranteed by the U. S. Government**
- **Walking Liberty obverse design considered by many to be the best design in American Silver Coinage**

GREAT QUANTITY PRICES CALL TODAY!

FREE THE INSIDER'S GUIDE TO U.S. COIN VALUES

With coin purchase receive a free personal copy of "The Insider's Guide to U.S. Coin Values 2007," for which our very own award-winning expert, Mike Fuljenz, has served as Gold Coin Price Co-ordinator. Since 1993, this annually revised price guide has been a perennial favorite for rare coin collectors and investors. As COINage magazine says, if you can only buy one price guide, this 229-page soft cover is the "obvious choice."

$10 VALUE Limit 1 per household, while supplies last.

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

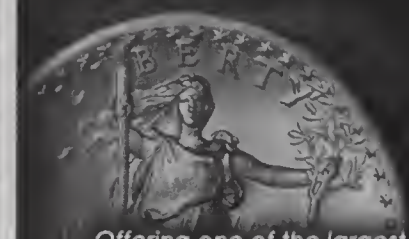

Join by phone, 800-514-COIN (2646), or online at www.money.org

1928 Hawaii Sesquicentennial

by Anthony J. Swiatek

In order to commemorate the 150th anniversary of the discovery of the Hawaiian Islands by Captain James Cook, and for the purpose of aiding in the establishment of a Captain James Cook Memorial Collection in the archives of the Territory of Hawaii, this remembrance preserving Commemorative Half Dollar became a reality. It was authorized per Act of March 7, 1928 with a maximum mintage of 10,000 pieces.

Production Figures

1928	$1,225	$1,430	$2,150	$2,900	$3,400	$5,000	$7,600

Obverse

The bust of Captain James Cook is seen facing left. Chester Beach executed the design based upon a sketch created by Miss Juliette Mae Frazer of Honolulu.

Reverse

Hawaiian warrior chief in full regalia, standing at the top of a hill, extending his right arm in welcome and holding an erect spear with his left hand. The anniversary dates 1778-1928 appear in the lower border.

The Philadelphia Mint produced 10,000 Hawaiian Half Dollars plus eight for assay purposes in June 1928. They were sold at $2.00 each — the highest price asked for a Commemorative Half Dollar to that date — by the Captain Cook Sesquicentennial Commission of Honolulu via the Bank of Hawaii Ltd., in Honolulu on Oct. 8, 1928.

Of the total mintage, 50 specimens were issued in the form of Sandblast Proofs and later presented to various officials and museums. Today, nine of these extremely rare pieces are located in museums. There were also 400 pieces of the regular issue kept for special presentation purposes. Supposedly, half of the remaining coins were shipped to the Territory of Hawaii and the other half were distributed on the mainland.

Low mintage, unintentional numismatic abuse and a wide distribution, especially here in the States, makes the Hawaiian one of the more valuable and sought-after Silver Commemoratives today. Most people who own the Hawaiian Half Dollar keep the coin in their possession. I personally believe that a wealthy family or group of investors in Hawaii acquired and still own between 1,500 and 2,000 or more pieces in various Mint State grades. That is my reasoning for why the issue sold out so quickly. It is difficult for me to believe that a large number of "Islanders" so readily forked over four times face value for the Half Dollar. I was met with skepticism when I also expressed the opinion that the Bank of Hawaii possibly possessed 500 of these coins. When inquiries were made to the bank by friends and clients in Hawaii, no one knew of their existence. However, on Jan. 23, 1986, Bowers & Merena Galleries auctioned off 137 of the coins for the bank. Do more reside within a safe deposit box at this bank? Only their owners know!

The Hawaiian Today

Specimens residing in the EF-AU category are so often encountered whizzed, or cleaned in various degrees or doctored in some fashion. These approximate $800 to $900 coins are the pieces forwarded by the unscrupulous or unknowledgeable dealers to bargain hunter collectors who inform the dealer that they can only spend up to $1,300 or $1,400, but want an MS60 coin or pay only up to $1,700 for an MS62 coin. Again, that's all they want to spend for the grade. Wake up, uneducated buyer!!! There is no Santa Claus in this business. Only acquire if the price is too good to pass and you are astute in grading the issue. If you just would like a representative example, only procure a Hawaiian which has been encapsulated by a major grading service — even when described on the grading label insert as cleaned but with MS60 or AU58 details. Just be aware when procuring a 1928 Hawaiian Half Dollar in a 2x2 flip or various coin holders (heavy paper or plastic, etc.) that is accurately graded as marked or indicated on the holder. If unsure, ask the dealer to submit the coin to a major grading service in the proper grading category for your protection. Naturally, you will pay for this service. Once you have bought a coin in an unsealed holder and grading problems arise, you may encounter difficulties returning the piece, unless you do so promptly. Do not remove a coin from a stapled 2x2 flip or other holder. Should a problem occur between you and the seller concerning the coin, you have no recourse because you may have invalidated the return privilege. Original appealing coins exhibiting some natural wear (AU58) can be difficult to locate and could easily bring MS61 money or more! Pieces grading from MS60 through MS66 are undervalued, if very eye appealing or premium quality examples. Strike seldom if ever will be detrimental to the coin's grade or value. Luster will range from flashy satiny (not the norm) to dull satiny. It is those bag marks, reed marks, hairline scratches, etc., which plague this issue in the primary focal area. That's Capt. Cook's face and head, as well as the Hawaiian warrior chief's body on the reverse. One deep hit in any of these areas can lower a coin's value $1,000 to $3,500! The Hawaiian Sandblast Proof — which was referred to as a token (of appreciation) when presented to Commission Chairman Col. C.P. Iaukea by Edgar Henriques, Commission Executive Secretary, on June 6, 1928 — is a rare item which can be owned by few people today. At times, one is offered for sale at auction or at a coin show. Values can range from $15,000 upwards depending upon its rating. There have been four (4) graded as high as PR66. I suggest you examine this treasure and compare its surface and double strike to the normal business strike. Beware of a business strike which was sandblasted outside the Mint. The Proof in question must be declared as such by an expert or compared side by side with a Hawaiian struck once.

The designer's original sketch, her cracked Wedgewood depicting Capt. Cook plus the Proof coin and case given to her was reportedly offered for sale at $100,000. I told the original seller that it was worth less than half the asking price. I believe such sold close to my approximation. One must ask oneself how much history is worth? You decide. Albeit, just one possible Registry Set buyer is required to pay that original number! To date, NO ERROR coinage has been reported.

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter *Bluesheet* provides Bids for certified coins only

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

Is Your Hawaiian Ersatz?

All known coins produced by the Philadelphia Mint have a raised die polishing mark extending from the upper part of the chieftain warrior's cap and extending through the palm leaves, as well as a more noticeable fine die polishing mark extending from his arm pit into the coin's field. The very first discovered **counterfeit** will exhibit a depression in the border design to the right of the second "A" in "AMERICA" on the obverse. Its reverse will display a small circular depression above the back part of the chieftain warrior's hand. There have been attempts to hide the counterfeit diagnostics by whizzing or polishing the coin. Another counterfeit displays a glossy luster, a semi-proof like surface with no reverse surface circular depression above the back section of the warrior's hand, as well as fuzzy striking details especially on the trunk of the reverse palm tree along with sharp edge reeding. Examining the throat of Captain Cook, we can observe a small raised line or spike protruding from his throat, extending into the field. The reverse bears an extra piece of raised metal near the rim above the fuzzy palm leaves near the eleven o'clock position.

Does Your Hawaiian Truly Exhibit Wear?

Obverse

The rim of this coin offers its high points little protection. Therefore, at the slightest abuse, Captain Cook's cheekbone and then the roll of hair over his side will display a loss of metal. Should you observe a distinct difference in metal texture or the worn shiny or bright look when comparing the cheekbone to the bordering facial area, definite friction has occurred. If no difference is present, but small scratches are observed, it's only a lack of metal fill. In other words, when the planchet metal flowed cold, as the coin was produced, there was not enough metal to fill in the cheekbone design and make it totally smooth. This location and his face will be the primary target of the "doctoring artists." Using a 7x to 10x magnifier, rotate the coin slowly 360 degrees, tilting it back and forth, attempting to detect their workmanship. Artificial toning can be applied to this location area as well as other original surface diversionary locations. If the captain's face has turned a whitish color since its purchase, chances are that your coin had a putty-like substance applied (which at the time resembled a Mint frost). Were this to be the case, its molecular structure has changed, creating this semi-opaqueness. Check it out.

Reverse

Look for metal loss in the form of a grayish white texture on the thighs, knees, sash and left hand of the warrior chief.

Related Material

The very rare and desirable Hawaiian Sandblast Proof was distributed in an unmarked, purple, covered wooden box. Its inner top was made with a purple satiny material with a purple velour lining the lower section. A metal push button is located in the front lower section of the box. The few I have encountered possess a church-like incense aroma. They have sold for between $3,500 and $6,500.

The business strike was mailed in a Bank of Hawaii Ltd. envelope (P.O. Box 2900, Honolulu, Hawaii) which contained a cardboard holder with openings for five coins. The coins were held in place by a piece of paper tape. On occasion, the enclosed coins will flaunt some degree of captivating iridescent shades of green, greenish gold, red and reddish brown. Higher graded specimens will bring greater monetary rewards.

Regarding the Hawaiian coin envelope and holder, expect a value of $250 to $650+ if you have an original. All is dependent upon condition.

Potential of the Hawaii Sesquicentennial Half Dollar

Total	0	0	1	4	3	16	4	4	0

Most circulated offerings of the King of Commemoratives are usually cleaned or whizzed and worth less than current levels. Un-doctored EF-AU coinage is worth between $1,400 and $1,500. Buy for the joy of ownership. Attractive AU material will usually bring MS60 money or more, depending on the coin's makeup. This creation is the most expensive Commemorative Half Dollar in circulated condition! In grades MS60 through MS63, the Hawaiian is still, due to its strong collector allure, undervalued. Attempt to procure a nice MS63+ specimen, if available. In MS64 condition, this very popular issue is somewhat undervalued. Real potential exists in coinage which rates MS64+. Pass on the unattractive and questionable offering. I would lower between 27% and 34% from present population figures.

Pieces grading MS65 are definitely undervalued at present — if strictly graded! There exists in the marketplace a small number of Hawaiians which leave much to be desired. They lack eye appeal and are liberally rated. It is this kind of material that drives values downward. Were they to be cracked out and resubmitted, a certain downgrading would take place. Pass on the dull, dark and smoky, unattractive coinage, even if such possesses iridescent or colored toning. When the "right stuff" makes its appearance, it almost always brings much more than the aforesaid pieces. Excellent potential here. Population figures can be reduced between 22% and 27%. In MS66 condition, we have a rare Commemorative which is too cheap at current levels — if accurately graded. Excellent potential. Pass on the unattractive offering.

A few Sandblast Proof Hawaiians have sold for about 55% of their value, since the last high in May 1989. Dealers needed funds at the time to run their business in a soft market. This popular rarity, when available, offers exceptional potential, and is an excellent coin to own in all grades!

After this issue, the Commemorative coin program went into figurative hibernation, during President Hoover's term in office. It appears our 31st man in the White House didn't care for our remembrance preserves. He viewed them as a misuse of our coinage system. Thank God our 32nd President was a stamp collector and also mindful of the coin collector.

We can thank President Franklin D. Roosevelt for a continuation of our special coin program. In 1933, our only Commemorative coin produced was the 1933-D Oregon Trail Half Dollar. The following year the Maryland, Boone and Texas issues became a reality. What would follow is U.S. Commemorative history. Should you have any questions, please be in contact.

The Personal Touch

As Only Bowers and Merena Auctions Can Provide

"Our goal has never been to be the biggest auction house, just the best. But no matter how big we grow, we promise not to lose the personal connection with our customers. It's what we are famous for, and it's what brings our customers back again and again."

Steve Deeds, *President*

Let's get personal...

Have a question? Call us... a real person will answer the phone. Have a really important question? Call Steve Deeds and speak directly to the president of the company. The professionals at Bowers and Merena Auctions are here for you, with a pledge to go above and beyond to make your auction experience pleasant and profitable.

We do big things with a small team, a team of experienced professionals well-versed in the lost art of providing personal service to our valued customers. We don't have a fancy skyscraper or a lot of overhead to support. Just good people who know how to bring quality coins and currency to the collectors who crave them.

Call a Consignment Director today to discuss consignment opportunities for a future Bowers and Merena auction.

We look forward to providing you with the best and most personal customer service in the business.

BU ROLLS

the following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

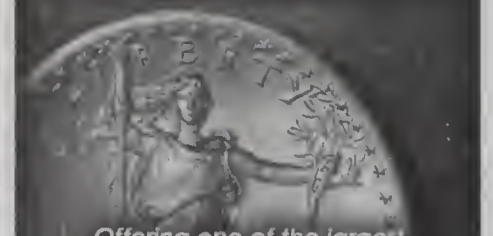

Join by phone, 800-514-COIN (2646), or online at www.money.org

DMPL Dollars Popular And Rare

by Don Rinkor

One of the strongest and best performing segments of the rare coin market has been DMPL Morgan Dollars. Almost weekly for the past few years, the *Greysheet* has mentioned the strong demand and higher prices for these amazing numismatic jewels. Population levels for many dates have not changed in almost a decade. Even dates that are considered more common have only increased slightly. With the limited number of certified DMPL Dollars available to the marketplace, and the number of sharp collectors and investors increasing the demand, you can well imagine the "Perfect Storm". Population levels mentioned in this article are based on the PCGS report for June, 2008.

DMPL represents the abbreviation for Deep Mirror Proof Like, and this designation is awarded to Morgan Dollars that possess a minimum of 4" of clear reflection in the fields. The PL designation for Proof Like is given for coins that have only 2" to 4" of reflection. While the determination for either is somewhat subjective, the grading services have become much more conservative over the past several years. Because of this, fewer DMPL Dollars have been certified as such.

While you will find a few PL and DMPL coins in other denominations, the Morgan Dollar series has shown to have produced the greatest number of Proof Like business strikes. Even among the other Dollars struck in the past 200+ years, you will find only a few Seated Liberty or Trade Dollars with Proof Like characteristics. Small Size Gold coins may also be found with PL and DMPL surfaces. These too are quite rare, but not designated as Proof Like by PCGS.

How does a business strike Silver Dollar made for general circulation look like a Proof coin? The process used at the Mint to produce circulating Dollars included the polishing of the dies on a regular basis. Each time the dies were polished, the first couple hundred Dollars would be struck with Proof Like fields. As more Dollars were struck, the dies became less polished and the subsequent Dollars had a frostier surface. Each time a freshly prepared die was replaced, a similar result would occur. A number of dates in the series show visible flaws as a result of too much die polishing. This will often result in a coin being graded only PL rather than DMPL since this will affect the reflection of the mirrored fields. Die polishing looks like very fine lines all running the same direction which are raised on the coin, and should not be confused with hairlines from mishandling or cleaning.

Not all dates in the Morgan Dollar series are represented by PLs or DMPLs. Die preparation was not consistent over the 28 different years the Mint struck Morgan Dollars. Add to this the fact that Dollars were struck at 5 different mints. The cleaning process of the planchets, striking pressure of the equipment, and other factors were constantly changing. The end result is that some dates will have quite a number of Proof Likes while others will have few.

7-Year DMPL Population Change Select PCGS Common Dates

Date	MS65	MS66
1879 S	9	3
1880 S	18	10
1881 S	– 8	15
1883	9	1
1883 O	17	6
1884 O	15	17
1885	55	8
1885 O	22	12
1886	No Change	No Change
1887	10	2
1898 O	17	7
1899 O	2	1
1904 O	15	8

It is amazing to consider how these incredible Dollars were able to survive the handling of Mint employees and being transported around the country in horsedrawn wagons. The minor contact marks that are visible on Mint State Dollars, with frosted surfaces, are magnified on a Dollar with reflective fields. Few DMPL Dollars exist in MS66 or higher because of this. While grading standards are the same for both DMPL and non DMPL Dollars, one has a very significant disadvantage for survival in high grade.

7-Year DMPL PCGS Population

Date	2001 MS64	2001 MS65	2008 MS64	2008 MS65	Population Change MS64	Population Change MS65

The absolute king of DMPL Dollars are the handful of coins described as "Black & White". This description is used for coins that display intense frost on the devices and ultra deep mirrors. The coin actually looks like the frosted devices are floating on a black sea. Stunning to behold and prized by DMPL Dollar collectors, these are extremely rare and represent only a few coins out of a hundred on average. Values will often run at multiples of Bid levels compared to examples that are not Black & White. The availability of these treasured B & W DMPLs is extremely limited, and they are seldom offered for sale.

Morgan Dollars from 1896 to 1904 will rarely display much in the way of contrast. While you may find a few "O" Mint Dollars sporting **cameos**, most dates have little to none. A coin in this date range with strong contrast will bring many multiples of Bid levels, as they are very rare. Without the cameo look to these later dates, the Dollars tend to be a bit boring in the eye appeal department. While this may be the case, these dates are actually very rare, with miniscule populations. The entire post 1900 population in DMPL is only 201 coins in all grades, if you do not include the 1904-O. In the past 7 years, the population of post 1900

The **CDN MONTHLY SUPPLEMENT** is a supplement to the weekly **COIN DEALER Newsletter** (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current grading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN** may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** *Bluesheet* provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

DMPLs has increased by only 9 coins. Did I mention these are rare? Even at the increased Bid levels, these dates remain significantly under-valued.

One might assume that the population levels of all dates in DMPL would have increased significantly over the past 7 years. This assumption would be incorrect. Here are a few specific dates in MS64 and MS65 DMPL to consider that show limited population increase in this period. Even some dates in MS64 DMPL have shown very small population growth.

As you may notice, there are actually some dates that have fewer coins than 7 years ago. This may seem odd, but coins can be upgraded, crossed to another service, or possibly removed from DMPL holders by PCGS because they don't meet current standards. Let's consider the population growth for some of the more common dates in the series. Other than the 1885, there have been few **new** DMPLs graded at these levels in 7 years. That is simply amazing when you consider how many Morgan Dollars were struck and survive in Mint State today.

The segment that has had the greatest increase in population levels is actually the common date Carson City Dollars in DMPL. The total Carson City coins graded as DMPL by PCGS has increased by 22% over the past 7 years. This compares to an increase of only 14% for all the other dates in DMPL over the same time period.

Common Date CC-DMPLs Population Increases

Date	MS65	MS66
1882 CC	+29.84%	+62.37%
1883 CC	+34.21%	+41.52%
1884 CC	+27.37%	+50.56%

Even the slightly tougher date 1881-CC and the 1885-CC have increased by 23% and 34% in the same time period, respectively. The reason for these dramatic increases is obvious. A huge portion of the Dollars sold in the GSA auctions of the 70's were PLs and DMPLs. Since these coins didn't travel anywhere and sat undisturbed for almost 90 years, there are numerous Proof Like examples. Many awesome DMPLs are still in the original GSA cases and have yet to be submitted for grading. This will mean that the population levels for the most common Carson City Dollars will continue to rise. Since "CC" Dollars are popular with collectors, their prices in DMPL have remained steady. Common date "CCs" have not increased in price at the MS64 DMPL level in the past 2 years. In MS65 DMPL, they have increased from 10% for the 1882-CC, to 25% for the 1883-CC and 1884-CC. This is a much lower increase than the non Carson City Dollars. The 1885-CC is Bid at almost 9% lower than 2 years ago. The only other coins that are Bid at lower levels are Carson City Dollars from 1890-CC, and 1891-CC in MS63 and MS64 DMPL. The 1892-CC has remained at the same Bid levels in those grades. While Bid levels may be a bit soft on these dates, nice coins will still bring strong premiums. This is very evident in the 1890-CC to 1892-CC range, where a 15% to 20% premium is not uncommon. The 1883-CC Dollar in MS65 DMPL with 628 pieces is now the highest population date in that grade, exceeding even the common 1880-S.

Let's take a look at the high grade DMPL Dollars and the value they represent. You might think that 1,052 Dollars from all dates in MS66 DMPL is a lot of coins, but if you consider that only the 1880-S, 1881-S, 1883-CC and 1884-CC Dollars have populations over 100 coins in that grade, that is not a lot of coins. DMPLs represent only 1.9% of all MS66 Dollars graded by PCGS. The percentage in MS65 DMPL is similar at 1.8% of the total MS65 population. There are only 63 MS67 DMPL Dollars, and the 1880-S represents 26 pieces. That translates into 1% of the remaining date range MS67s grading DMPL. Did I mention these are rare? Yes I did!!!

We have seen the price levels for PLs and DMPLs explode in just the past couple years. Even what some would consider as common dates have increased over 40% since September of 2006. Many of the rarer dates have increased from 50% to nearly 300% during the same time period. Supply and demand is the name of the game here, and the supply is well short of the demand. If you consider that a common date 1880-S in MS65 is currently Bid at $139, you would think that a DMPL in the same grade would be worth over 50 times that price. That would represent $7,000 if you compare price to population. Is this crazy or what?

Nearly 4 years ago I wrote a similar article that was published by *CDN*. The article was titled, "Deep Mirror Proof Like Dollars, Undervalued & In Demand." I guess that hasn't changed a bit, and in reality, the market demand has increased by multiples. With the advent of registry sets, the number of collectors has exploded. Add to this the casual investor and the guy that just loves to buy the prettiest coins he can find, and you can see the writing on the wall.

Another indicator that has substantiated the red hot DMPL market is with the major auction houses. The number of DMPL Dollars offered by these companies in their auctions has dwindled to where there may be no better or even slightly better date DMPLs auctioned. Even the common dates have declined in eye appeal over the past few years with attractive coins seldom offered. It is amazing to look over 500+ lots of Morgan Dollars and find only a couple coins worth buying. The end result is that the few attractive pieces will sell at very high levels.

Walking the bourse reveals the same sobering reality. Few, if any, really cool DMPLs can be found. Rare dates and even attractive common dates will disappear quickly when displayed. Because of this phenomenon, attractive PL Dollars are also seeing very strong demand. While not quite as dramatic in eye appeal as their big brother, PLs offer a solid buy if they have the right look. Population levels are so small on some DMPLs that the only possibility for some dates and Mint marks is a PL Dollar.

So, why collect PL and DMPL Dollars? The incredible beauty is, by far, the best reason. The added appeal of collecting what you love, and the potential for that passion to result in a good investment, does not always coincide. If you should chose to build a complete set of Morgan Dollars in PL and DMPL, you will need to be prepared for the adventure. It will not happen quickly, but the end result will be a very impressive and rare collection you can be very proud of. The key to collecting and investing in DMPL Dollars is to remember that it is all about **eye appeal**.

The Best is in the West in 2009!

Bowers and Merena's *Official* Auction for the ANA National Money Show™

Auction & Lot Viewing March 9-15, 2009 • Portland, Oregon

Consignment Deadline: January 26, 2009

Bowers and Merena Auctions is proud to be chosen by the American Numismatic Association to host two highly anticipated official auctions for 2009 in Portland and Los Angeles. We invite you to be part of the premier numismatic events of the year by consigning your coins and currency to the auctions that collectors and enthusiasts everywhere will be waiting for!

There's no time like the present to consign to the *Official* Portland ANA Auction…
And by present, we mean Bowers and Merena wants to give you a present for consigning early!

Dealers, Steve Deeds has a special early bird consignment offer just for you!

Consign your coins or currency by Friday, October 31, 2008, to Bowers and Merena's Official Auction of the ANA National Money Show, and Steve Deeds will make a special money-saving consignment offer just for you!

Call Steve today for this exclusive dealers-only offer that will be customized to your consignment for maximum savings!

Hurry, this offer expires Friday, October 31, 2008!

WILD WEST
RELIVED

MORGAN SILVER DOLLAR § CERTIFIED MINT STATE 63

CHOICE BRILLIANT UNCIRCULATED

ESTEEMED POPULARITY
The #1 Most Collected Classic United States Silver Coin.

RICH HISTORY
Indelibly linked to romance and folklore of America's Wild West era.

SURVIVING POPULATION
Over 2/3 of original mintage believed to be melted down by Pittman Act of 1918 & Silver Bull market of 1980.

LUSTROUS DESIGN
Famed "cartwheel" wagon spokes luster.

CAPTIVATING BEAUTY
Highly Acclaimed George Morgan design, modeled after Anna Willess Williams, a young Philadelphia kindergarten teacher and art student.

IMPRESSIVE SIZE
Largest General Circulation Coin Of Its Time.

RISING PRICE TREND
Today's prices are approximately 12% higher than 2007 prices & expected to trend higher.

CERTIFIED MS-63 NGC/PCGS CHOICE BRILLIANT UNCIRCULATED
Collectors favor specimens Certified by NGC or PCGS in Brilliant Uncirculated condition evidencing no wear on the coin and exhibiting brilliant mint luster. These are even better, they are Choice Brilliant Uncirculated MS-63.

RISK FREE GUARANTEE

Designer: George T. Morgan (initial on obverse neck & reverse left ribbon loop)
Diameter: 38.1 mm (approx. 1.5 in) • Weight: 26.73 g (.77344 oz. pure silver) • Composition: .900 silver, .100 copper • Edge: Reeded
Mint Distribution: Released in 1,000 coin canvas "duck" bags weighing 57lbs.

Since the Morgan Silver Dollar first appeared in 1878, it has become the #1 most collected "classic" U.S. silver coin. Over the course of their entire production run, from 1878-1904, and once again in 1921, the Morgan Dollars were minted in five different cities housing U.S. Mint operations. Minted for general circulation, the Morgan Dollars were very popular during their time and remain so among collectors down through to today.

For months, our Acquisition Team has gradually accumulated an impressive, but limited, cache of Certified MS-63 Choice Brilliant Uncirculated Morgan Dollars produced at the Philadelphia, San Francisco and New Orleans Mint facilities between 1878-1904. Each of these historic silver dollars has been graded and certified by either Numismatic Guaranty Corporation [NGC] or Professional Coin Grading Service [PCGS] and sonically-sealed to preserve their condition. You now have a limited time opportunity to order one of these historic coins at our actual dealer cost of only $41 per coin. The first 250 orders will also receive FREE Priority Shipping & Insurance, an additional $7 value. Order yours right now before our limited allotment is depleted and this offer is withdrawn.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

How to Receive the Largest Check for Your Coins and Currency: Get Them to Dale Larsen at Spectrum!

Spectrum is one of the largest and soundest buyers of coins and currency in the world. (We have more full-time buyers than most dealers have employees!) That's why so many dealers, collectors, investors, heirs, attorneys, and estate administrators depend on Spectrum when selling all kinds of coins and currency. They trust Spectrum to deliver the highest possible price, accompanied by fast, courteous service.

We buy thousands of coins and notes every week, items with values from under $5 to over $1 million. Spectrum buys individual coins and notes, partial and complete collections, accumulations, hoards, rarities, Territorials, Colonials, Large and Small Notes, National Currency, even errors!

And unlike so many of our "competitors," who are only interested in your most valuable coins and/or notes, Spectrum buys it all, and pays top dollar!

Dale Larsen, Spectrum's Senior Buyer, has helped tens of thousands of coin and currency owners get top market prices for their collectibles. Whether you want to sell a single coin or note, or a lifetime accumulation, there are four main ways to deliver your coins and currency to Dale:

#1. Deliver Them by Mail. There is no safer way to deliver valuable coins or currency to Dale than Registered, Insured mail. (Did you know the Hope Diamond was delivered to the Smithsonian this way?) Using the United States Postal Service's Registered, Insured Mail option is preferred by the vast majority of men and women who sell to Spectrum. **It's convenient and 100% safe.** Call Dale toll-free today (888-828-2646) to learn how the USPS will safely and quickly deliver your valuables to Spectrum.

#2. Deliver Them to Our Offices in Person. What could be easier and faster than driving your valuables to our Irvine, California, offices and driving away a short time later with Spectrum's market-topping check? All we ask is that you arrange for an appointment with Dale, so he can give your coins and currency the attention they deserve. And provide the security you deserve.

#3. Deliver Them at a Show or Convention. Today's sellers often prefer to meet and discuss their collectibles with Dale at a secure coin show near their home. That's why Dale travels to dozens of the larger local, regional, and national coin shows and conventions every year. Dale recommends a toll-free phone call well before the convention to be sure he can schedule sufficient time to meet you, review your coins and currency, and make a top-dollar offer.

#4. Dale Visits You. No part of Dale's week is more enjoyable than a visit to a seller's home, office, or bank. He flies and drives thousands of miles every month to personally meet collectors, investors, dealers, attorneys, and heirs. **More than 95% of these meetings conclude with Dale writing a sizeable check, then taking possession of the coins and/or currency.** Naturally, meetings like this can only take place by appointment due to the security arrangements that must be made.

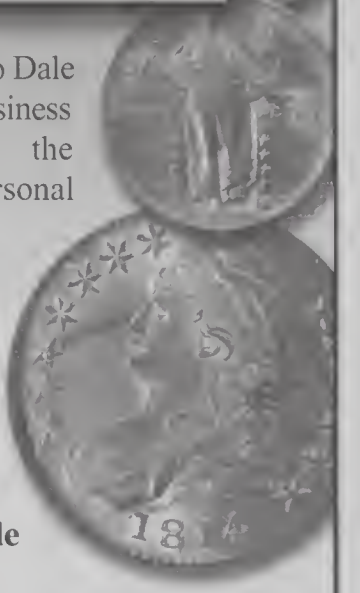

Meet Dale Larsen, Spectrum's Senior Buyer. Dale brings decades of experience as a collector and buyer to his job. Thousands of coin and currency owners have discovered how easy, enjoyable, and profitable it is to sell their coins and/or currency to Dale. **When you're ready to sell, and you want a BIG check from a 100% reliable source, call Dale Larsen Toll-Free at 888-828-2646.**

For Spectrum's Top Offer Call Dale Larsen Toll-Free:
888-828-2646

Whether you deliver your coins or banknotes to Dale by U.S. mail or in person, you'll be conducting business with today's market leader: Spectrum, the company known for fast, convenient, personal attention to you, and to your coins and notes.

Join the tens of thousands of sellers of coins and currency who have done business with Spectrum. Call, fax, or email Dale Larsen at Spectrum today to begin the process that will produce the highest possible prices for your numismatic valuables. **Remember, Spectrum buys it all, and we pay more for your valuable coins and notes.**

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

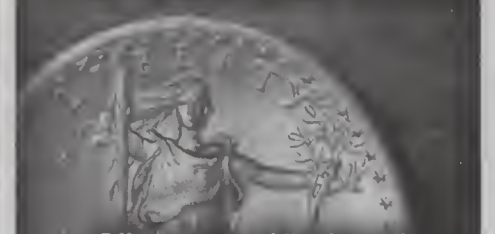

Join by phone, 800-514-COIN (2646), or online at www.money.org

Matte & Roman Finish Proof $20 Saint-Gaudens

by Silvano DiGenova

The pinnacle of U.S. coinage or an unpopular anomaly? Regardless, Proof Saint-Gaudens represent a very rare and short-lived series that clearly should be at the absolute pinnacle of the coin market. They represent the Impressionist paintings of the rare coin market. They have great beauty in their needlepoint stitching and flawless surfaces. In the case of the two years, 1909 & 1910 with the Roman Finishes, they additionally have magnificent eye appeal. The $20 Saint-Gaudens is America's most popular Gold coin by a large majority, and Proofs of the series are an anomaly by contrast, and an exceptionally rare series.

The Saint-Gaudens series in Proof (excluding the Proof High Relief & Ultra High Relief, and a few others that are extremely rare sub varieties, and will be covered later) stretches from 1908 to 1915. The 1908, 1911, 1912, 1913, 1914, and 1915 are "Matte Finishes," while the 1909 & 1910 are known as "Roman Finishes." The Romans very much look like a Proof Like Morgan Dollar with mirror and some contrast, but no cameo effect. They are extremely beautiful and full of eye appeal. The Matte has the classic "sandblasted" look, usually flat, with very fine "needlepoint" detail. The individual dates, if completely original, look as follows, and the individual rarity is also discussed.

1908: Dark brown to olive in color, the '08 sometimes is not struck as well as the others. Being the first year of issue, the finish probably had not been perfected. Typically, the 1908 comes very dull, and is one of the most unattractive of all the Matte Proofs. It is also the **least** rare of the series overall, but in PR67 it is tied for fifth according to the PCGS/NGC combined population reports.

1911: Next in the series of Matte Proofs is the 1911 which is possibly the prettiest. The 1911 generally has the lightest coloration of any of the Mattes. It is a yellow to pale gold in color, with an occasional orange toning. The strike on most 1911s is usually exceptional. This issue ranks 6th as far as rarity among the series of eight Proof Saints, with only 1908 and 1912 being more available. In PR67 or better, it is the most available.

1912: The next date is very similar to that of 1911 in both overall rarity and appearance. The 1912 is relatively light in color, usually a yellow or pale gold, and also occasionally has a light orange tint. Like its predecessor, this date has a fantastic strike. As far as rarity, the 1912 ranks 7th in PR65 or better. In PR67 or better, it is tied as the second most plentiful, only behind the 1911.

1913: Rather olive in color, the 1913 is much closer to 1908, in contrast to the 1911 and 1912. The strike is not as fine as the 1911 or 1912. In general, the overall look of the 1913 Matte Proof Twenty is not very appealing. In Proof 65 or better, it ranks as the 5th rarest, and in PR67, it's also the 5th rarest (tied with that of the '08).

1914: The 1914's appearance is similar to that of 1913, but slightly brighter and more coppery. The strike for most 1914s is superior to that of 1913, and nearly as perfect as 1911 and 1912. Also in many specimens that I have examined, the 1914s appear to have striations that may look to most people like hairlines. The 1914 is the 3rd rarest of all the Mattes in PR65 or better. It's also the 2nd rarest in PR67 or better for all dates.

1915: This is the final year for the Matte series, and by far the **rarest**. The 1915 in original condition is quite dark and dull, very similar to the 1908, but sometimes can be a lighter shade. The strike is often weaker than most other dates. With a mintage of only 50, it is no wonder why it's the rarest of all Proof Saints in our survey. The 1915 has only a total of 20 coins graded in PR65 or better, of which I estimate only 13 are still in holders (due to re-submissions). The 1915 ranks first in PR65 or better, and also first in PR67 or better. In PR67, only one lone coin has been graded.

Now we move to examine the Roman Finish dates, of which there are only two. (Note: A few 1908 Romans exist, as well as a 1907, but we will cover these in the future.)

1909: The 1909 is one of the most attractive of all the Proof Saint-Gaudens, generally exhibiting superior eye appeal. The coloration tends to be slightly coppery and very brilliant. Overall, the 1909 is the 3rd rarest in PR65 or better, and 4th in PR67 or better.

1910: Generally, the 1910 looks very much like the 1909, although they tend to be even better in appearance, being more mirrored and golden in color, as opposed to the coppery color of the 1909. Overall, the 1910 is the 4th rarest, and in PR67 or better, it is the 3rd rarest.

Although the 1909 & 1910 are not the rarest, they do tend to command the highest prices. This is for several reasons: first, their overall beauty, which, being a Roman finish is much easier to understand than a Matte finish, and as far as eye appeal, they are clearly far superior. Secondly, as a two-year Type, the total number of available coins is far lower for the Romans than the Mattes.

The key element to note about this series is its extreme overall rarity. First, only 687 coins were minted for all the

CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer-to-Dealer, wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly **Coin Dealer Newsletter** (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1915	8	4	1	0	13	1	1	1	8	3

dates: 1908 through 1915. The lowest being that of the 1915 at 50, and the largest 1910 at 167 (although this number is inaccurate as many have been melted).

Of this scant number of production, famed author David W. Akers estimates that only 170 to 210 total coins exist today. Although the total population of graded coins by PCGS & NGC are reported at 322, we are certain that it is overstated by quite a bit. My estimation is approximately 228 as the current graded population (slightly higher than David Akers' total estimate of survivorship). The following assumptions were used to calculate my estimate of the population: Firstly, in Proof 65, I believe the reported population numbers are overstated by 40%. In Proof 66, they are overstated by as much as 30%, and in Proof 67, by as much as 15%. Finally, in Proof 68, we will assume the population data is 100% accurate, not because anyone has attempted to breakout a PR68, but because anyone doing so and possessing such a coin would have returned the tags.

Therefore, the reason for this large discrepancy in population revolves around the resubmission of many of these coins for profit. However, the net result is a much tighter spread of valuation between grades, except in the case of Proof 67 & 68. My philosophy has always been to recommend the grade which has the lowest premium overall to the previous grade. My feeling is, as in most series, that Proof 68s are overvalued, relative to the 67s. As time passes, this too will contract. Overall, in the Saint-Gaudens series, it's all about the rarity, and not the grade.

The Proof Saint-Gaudens series is clearly very undervalued relative to other popular, big important coins. Let me illustrate some examples. First, let's look at a few "common date" Proof Twenty Dollar Liberties. Grade for grade, compared to Saints, these sell for a large premium. For example, in PR65, the Greysheet Bid is $86,500 for the $20 Liberty, versus $52,500 for the $20 Saint-Gaudens. Furthermore, the Twenty Liberty Series is far more extensive, with many more common dates to choose from. So the total population for a Type coin is far greater in PR65 or better. Additionally, even though the Twenty Dollar Liberty premium in the PR65 grade is nearly 65%, in higher grades, the Twenty Dollar Liberty has an even larger premium.

Another key example of a coin that illustrates how much Proof Saint-Gaudens are undervalued is the Mint State High Relief Saints. In MS65, a total of 685 have been graded by both PCGS & NGC, while only 108 Proof Saint-Gaudens have been graded in PR65. The Proof 65 Saints have a Bid of $52,500, while the MS65 Saints are Bid at $45,500, only a 15% premium for the Proofs despite them being nearly 7 times rarer. In grades above MS65, the Mint State High Relief actually sells for more than the Proof Saint-Gaudens. In fact, in MS67, the Mint State High Relief sells at a 25% to 60% premium to the Proof Saint-Gaudens. The total population of High Reliefs in MS65 or better is 947, while the total population of Proof Saint-Gaudens is a mere 322. Based on this information alone, one would conclude that the Proofs are remarkably undervalued. However, one additional key piece of information must be disclosed, which is that in all probability, 80% to 90% of all existing Proof Saints have been graded. While in the case of the 12,367 mintage Mint State High Reliefs, with extreme certainly, I can state that the majority of known specimens have not been graded.

I must discuss one final, but controversial, and very important point regarding the Proof Saint-Gaudens series. At this time, many Matte $20s have been dipped, and some individuals, as well as one grading service, look very harshly at this. I say, to each their own taste. However, in nearly all series, dipping is looked upon very favorably (how many Morgans have not been dipped?). I feel discounting value or grade due to dipping is not appropriate. So, I can certainly see paying a premium for a fully original coin or giving it a slight edge when grading such a coin.

The Proof Saint-Gaudens series is certainly one of the most interesting, beautiful, rare and extremely undervalued series in all of American numismatics. I highly recommend it to all who can afford this great series.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

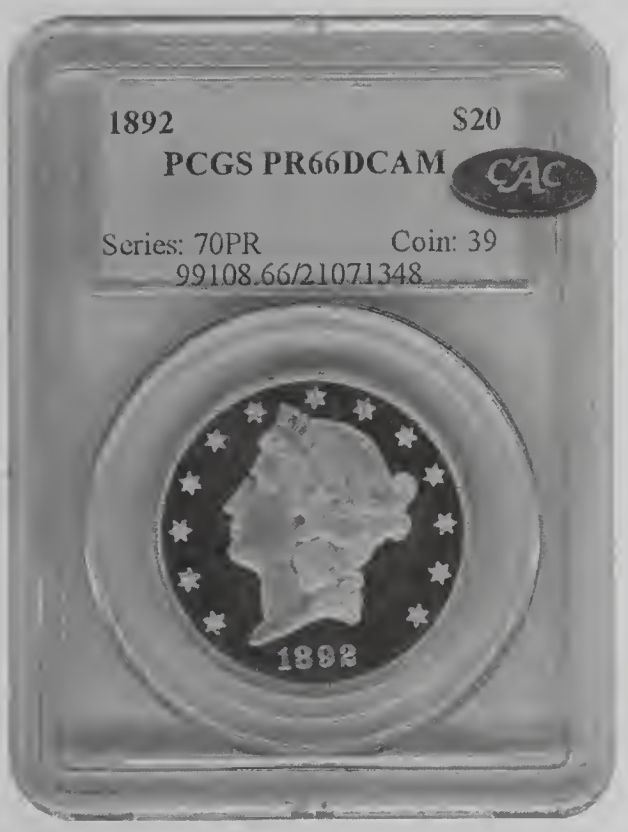

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Gold Rarities Gallery

P.O. Box 1140 • Amherst, NH 03031
Call 1-800-224-3160 • Fax 603-249-9480

Looking for high quality, fairly priced PCGS and NGC coins?

Gold Rarities Gallery has long been known for buying only the very best when it comes to quality. We spend many hours a day choosing only the very best coins for our clients.

Feel free to visit our web site at **www.goldrarities.com** or give us a call at our office at **1-800-224-3160** for an up to date list. Also when visiting be sure to fill out a WANT LIST form to insure first chance at all new purchases.

Gold Rarities is now featuring NGC and PCGS coins verified by CAC.

CAC

SETTING *THE* STANDARD FOR QUALITY

From the most common of dates to the extremely rare, ***Gold Rarities Gallery*** *has you covered. Put our 20+ years of market experience to work for you. Competitive prices and top notch service are guaranteed.*

I look forward to working with you,

Al Pinkall
President, Gold Rarities Gallery

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your home-owners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

Two Cent Pieces
IN GOD WE TRUST

Our highest denomination circulating Copper coin was the Two Cent piece. Created out of necessity, it was perhaps America's most controversial coin, at least initially. However, its brief but vibrant numismatic history (1864-1873) does more than make up for its short-lived wallflower status. Actually, attempts to introduce the Two Cent denomination occurred in 1806 and 1836, but both efforts failed due to technical considerations. By the mid-nineteenth century, our country had just gone through a significant fiscal metamorphosis, and reshuffling our regular circulating Copper issues was next on the agenda. The year 1857 was to be the swan song for both the venerable Half Cent and Large Cent. The Half Cent concept was eliminated due to production costs, and Large Cents were overhauled and completely replaced with a new, much smaller diameter Flying Eagle design and Copper-Nickel alloy created by Chief Mint Engraver James B. Longacre. This alloy remained the same through 1864 with the popular Indian Head motif making her inaugural appearance in 1859.

At the onset of the Civil War in 1861, most citizens, as well as hoarders and speculators, began pulling all Gold and Silver coinage from circulation. By the end of 1862, the metal mania and economic concerns had spread to include millions of financially shell-shocked Americans that were frightened by fiscal devastation. Common folks pulled every coin they could lay their hands on, including the newly introduced Copper-Nickel base metal entries. To combat this cataclysmic drought of legal tender coin, enterprising entrepreneurs and merchants on the east coast began to produce Copper tokens, generally equal in size with the new Small Cents. These pseudo-coins, which became affectionately known as Civil War Tokens, often featured a business name and/or a colloquial slogan along with the promise of goods in exchange when redeemed. These wartime Copper replacements, created out of necessity, effectively took up the slack and were widely accepted as legal tender.

Soon the private sector's acceptance and tolerance of these Copper issues gave Washington the idea to retain the Indian Head Cent, but alter its composition, incorporating the thinner bronze planchet. At the same time, it was thought that a new denomination, perhaps a Two Cent piece, also composed of bronze, would alleviate the severe coin shortage faster. As a matter of official record, Mint Director James Pollock wrote to Treasury Secretary Salmon P. Chase on December 8, 1863 outlining his proposal for the new denomination Two Cent piece. Longacre's two design proposals included one bearing the bust of George Washington, and the other a stately shield and arrows. Both Chase and Pollock concurred that the shield concept was the way to go.

As legislation passed for this new denomination in late April 1864, another historic first was to be made. At the outset of the Civil War in 1861, a Baptist minister, one Mark R. Watkinson, of Ridleyville, PA had written Secretary Chase imploring him that the country's strong religious fervor and sentiments pertaining to the war should somehow be recognized on our coins. The acknowledgment of the Supreme Being had obviously been seared in his psyche as Chase made stipulation that a divine inscription was to be included on the trial striking of the new coin. The first test employed GOD OUR TRUST, yet as dies were finalized, the familiar phrase IN GOD WE TRUST was selected. Interestingly, the now famous motto wasn't stipulated by the Congress on the act of September 22, 1864. The law just made an allowance for treasury officials to use discretion as to regards to the inscriptions on minor coins. Nonetheless, these nearly quarter sized Coppers were gobbled up by the coin-starved population as they made their appearance in late 1864. Initial public controversy regarding the motto's bold statement quickly waned. As the bloody and prolonged war was raging into its fourth year, the sentiment IN GOD WE TRUST was one that was shared by many Americans.

The US Mint certainly did its part to quell the coin shortage, as nearly 75% of all Two Cent pieces produced during the series' 10-year history were released in the first two years, amounting to some 33,487,500 coins. Now with the immediate need for small coinage met, and the public curiosity having worn off, there was a steady decline in Mint production at the Philadelphia facility until the final Proof-only striking of 1873. Due in large part to the tremendous early mintage figures, this series does possess numerous varieties of major and minor standing, most of which are very scarce to down right rare. The first and perhaps most well-known

PUBLISHER & EDITOR Shane Downing
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

is from the inaugural year 1864 which produced the variation simply known as the "Small Motto". On this popular coin, the famous motto IN GOD WE TRUST has noticeably smaller, yet fatter lettering than those on the common or "Large Motto" variation. For those coins that are more heavily worn, an easier diagnostic is that there is no stem on the leaf below the word *TRUST*. The 1865 entry has a variation of its own, as it appears to show traces of an under digit 4 below the 5, creating the 1865/4 entry which is the second rarest overdate installment in the series. There is also a scarce and rare double die obverse error on the 1867 issue, which through an obverse hub die shift exhibits a pronounced doubling of the motto and wreath. The last year that produced over a million mintage, 1869, fashioned the very rare 1869/8 which is by far the toughest to secure in high grade, but is more often encountered in Circ condition than the 1865/4. Taking the crown as the scarcest regular issue (at least production wise) is the 1872, reporting in with a paltry mintage of 65,000. Business Strikes are much scarcer than their Proof counterparts, and collectors can easily make the determination if the coin is truly Mint State by the way of diagnostic die breaks at "UNIT" on the reverse. Speaking of Proofs, each of the ten years the Two Cent piece was issued, Proof versions were also struck by the Philadelphia facility, with the final year, 1873, being a Proof-only striking. Yet even here, the die cutters had a field day as the coin exists with Open 3 and Closed 3 varieties. The rarest Proof issue is hands down the 1864 Small Motto. For those enthusiasts of the last of the large Coppers, we offer you the following date-by-date breakdown.

The 1864 issue is very popular with collectors, not only because of its first year status, but also because of the always desirable Small Motto specimens. Although the overall enthusiasm for this series may be lacking in some quarters, the 1864 Small Motto is front and center with collectors and always in great demand. While enough Mint State business strikes make the rounds to satisfy collectors, Proof versions are another story. Only 19 have been graded in all color combos according to PCGS & NGC. Always a stir when a Proof appears, the last full Red piece to appear on the auction block was at the 2007 ANA sale where the ex Richmond pedigree coin (which originally sold in 2004 in an NGC PR64R slab for $39,675) brought a solid $48,875. The most recent appearance for this rare Copper stopper was at the recently concluded Scotsman sale Oct 17, 2008. Here a stately PCGS PR64BN specimen was bought by an avid Midwest collector for his cabinet at a tidy $28,750. Mint State examples are of course more frequently encountered, yet the satiny Full Red clan are also fetching powerful prices. One of the finest known, a PCGS MS66R housed in an old holder with green insert went to an excited floor Bidder at the 2008 FUN auction where this crimson jewel commanded $32,200. Large Motto examples are certainly the easiest coin to come by in all regular strike colors with most Red or Red & Brown coins exhibiting a mellow satiny sheen. The Proof version is the second scarcest after the Small Motto, with around 150 pieces accounted for. Of course, here again, Pop reports tell a slightly different tale due to resubmissions and crossovers. It must also be noted for those interested in building a set of Proofs that other than the final Proof-only 1873 issue, it can sometimes be quite difficult in determining a coin's Proof status. In many instances, early strikes from non-Proof dies have been mistakenly identified as Proofs. Distinguishing a Proof from non-Proof can sometimes only be done if there is a tell-tale die characteristic in the Proof die. Other than that, there can always be posed a legitimate question as to whether or not the particular coin is in fact a Proof.

The final year of the Civil War in 1865 also brings down to earth the regular Mint strikings and Proof availability with the second largest pool to chose from for those bearing a full Red designation. The post Civil War trio of 1866, 1867 and 1868 Two Cent compatriots all yielded similar mintages, each near or slightly over the three million mark. Yet each of this group is also increasingly more difficult to locate in unmessed with full Red. For the die-hard specialist, there are also minor varieties here (as well as the 1867 double die) yet for the most collectors, any of this trio is available in Mint State, and usually all are relatively sharply struck and with more than adequate luster. The lone exception being a tad bit of weakness on the reverse of the 1868.

The 1869 entry reports in with about half the mintage of the just discussed trio, yet regular Mint State strikes are quite abundant. Fewer than 75 are estimated to have survived with full natural Mint coloration. As the series lost its favor with both the public and government, the last three years of regular entries created not only consecutively lower mintages, it also brought to the limelight perhaps one of the most unheralded rarities. While the 1870 and 1871 have similar mintage totals and survival rate for full Red specimens at around 50 each, it's the 1872 with a mere 20 accounted for having attained the desirable Red designation. It wasn't that long ago that the 1872 was referred to as the "sleeper" to the series. That certainly isn't the case any longer. Just try to get a pleasing example in Circ or Mint State at a reasonable level on the bourse or at auction. If one needs more evidence, the last full Red coin to make a public appearance was just prior to the FUN show this year as a part of the Bowers & Merena rarities sale. Here a PCGS MS64 Red specimen with dazzle chased home an amazing retail price of $13,225.

The year 1873 brought the curtain down on this yeoman Copper of yesteryear. While not popular with collectors and the general population, it is perhaps fitting that the final production was limited to Proof only strikings. Two versions exist, one with a Closed 3, the other with an Open 3. While original Mint figures state 600 were struck for the Closed 3 and approximately 500 for the open variety, it is the open variant that is decidedly rarer. Third party population reports indicate at first glance more than two and one half times the Closed 3 than the open version. Without question, the Open 3 is significantly rarer, yet it must also be noted that present PCGS/NGC pop reports confirm a total of 656 Closed 3 Coppers in all grades. This is inflated by at least 56 coins over the original official mintage. Of course collectors can take this figure and put their Two Cents in.

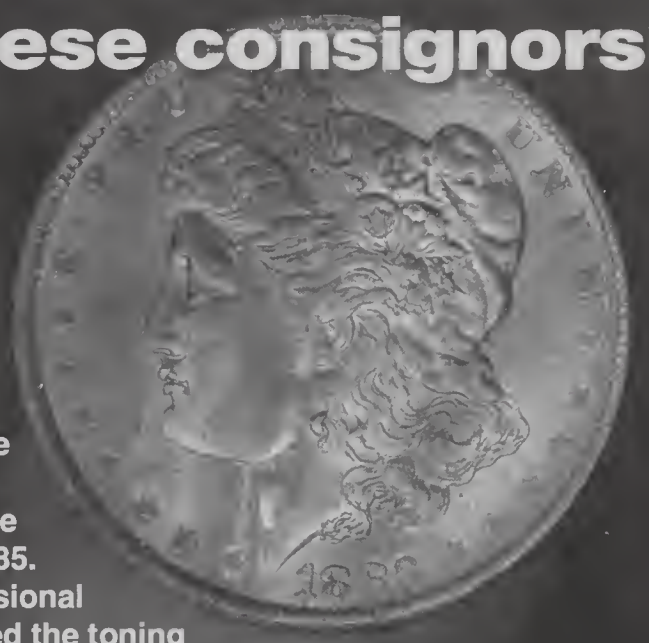

Grand Slam Prices from Teletrade!

Teletrade swung for the fences and scored BIG for these consignors!

Small Cent 1909-S
Indian Head
PCGS MS-65 RD

An outstanding Indian Cent, the PCGS Price Guide values this MS-65 Red at $6,000. Teletrade marketed this coin to the major buyers of Indian cents and realized a record **$25,200!**

Silver Dollar
1883-O
PCGS MS-65

Without toning, the PCGS Price Guide lists this coin in the same grade for $185. Teletrade's professional imaging showcased the toning details and helped sell this rainbow coin for **$2,300!**

Half Cent 1804
PCGS MS-65 RB

Record breaker! Another finest known that Teletrade sold for a best-ever auction price of **$32,480!** Superb quality of an early issue that is destined for one of the finest Registry Sets.

Dime 1890-S PCGS MS-65

Teletrade can get top dollar for best quality coins, often beating PCGS Price Guide prices! This coin is tied for finest known with a PCGS Price Guide value of $2,500. Teletrade realized **$2,875!**

Half Dollar 1861 PCGS MS-66

This coin was off the market for more than 10 years. When it came time to sell, the consignor chose Teletrade to bring above-market prices... and realized **$30,240!**

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem, full bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN

ANA LM #1280

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

Classic Head Gold Coinage

by John W. McCloskey

During the early years of the 19th century, large quantities of Latin American Silver coinage entered world markets, effectively lowering the price of Silver relative to Gold, so that early US Gold coinage was worth more than its face value as bullion. The United States was therefore forced to reduce the weight of its Gold coinage so that it would circulate freely in daily commerce. A bill was introduced in congress that lowered the weight of the Gold Eagle, Half Eagle and Quarter Eagle by the Act of June 28, 1834 that would take effect on August 1, 1834. To distinguish the new, lower weight coins from the old ones, the US Mint prepared reverse dies that omitted the motto E PLURIBUS UNUM and revised the obverse dies by using an old John Reich Classic Head design.

The Classic Head design was used on Gold coinage for a period of only six years, from 1834 to 1839. It was used on the Quarter Eagle and the Half Eagle, the only two Gold denominations struck at the Mint during this period. While it is a rather short series, it is nonetheless a very important series. Though there was extensive melting of earlier Gold coinage, this series contains coins that are readily available at modest prices to the interested collector. The Classic Head series also contains the first Branch Mint Gold coinage from the Charlotte, Dahlonega and New Orleans Mints. These pieces are in constant demand from collectors because their mintmarks appear on the obverse of these coins.

The Classic Head series consists of only 17 different dates for the Quarter Eagle and Half Eagle denominations combined, and they are all available to any collector who wishes to build a set. For the Quarter Eagle denomination there are ten dates: Philadelphia coins for the six years from 1834 to 1839; Charlotte coins for the years 1838 and 1839; and Dahlonega and New Orleans coins for the year 1839. For the Half Eagle denomination, there are seven dates: Philadelphia coins for the five years from 1834 to 1838, and Charlotte and Dahlonega coins for the year 1838. Most of the Philadelphia dates are available in Mint State and sometimes in Choice Mint State grades, while most of the Branch Mint issues are very rare in Mint State.

Classic Quarter Eagles

Total mintage for the ten dates in the series is just under one million pieces. The 1834, 1835 and 1836 issues are the most common dates in the series and readily available in Circulated grades from VF to AU. These three dates are also frequently available in Mint State and offered on a regular basis in Choice Mint State grades. The remaining seven dates are scarce in Mint State and rare in Choice Mint State grades. More detailed information on the individual dates is given in the paragraphs below.

1834 Quarter Eagle

This date has a reported mintage of 112,234 pieces and is the second most frequently offered date in the series. There are four known die marriages that were struck from two obverses and four reverses. There are two major Types for this date. The Small Head has the date far from the curls, and the roll of curls on the back of the head is almost straight. This is the most common Type for this date, and it is frequently offered in all grades through Choice BU. Examples are always very well struck, but some pieces show weakness in the curls below LIBERTY on the obverse. There are perhaps eight known Proofs of this Type with some of them in Choice Proof and better grades. The Large Head coins of this date have the 4 in the date close to the curls and a deep indentation in the curls between the 10th and 11th obverse stars. This Type is also readily available in all grades through Choice BU. It is generally well struck with some examples showing weakness in the curls over the ear on the obverse. One reverse die develops a heavy die crack through AMERICA on the reverse.

1835 Quarter Eagle

This date has a reported mintage of 131,402 pieces and is the third most frequently offered date in the series. There are three known die marriages that were struck from one obverse and three reverses. This date is readily available in all grades through Mint State and is sometimes offered in Choice BU. It is not generally as well struck as pieces from the previous year with many examples showing weakness over the ear on the obverse and through the horizontal and vertical shield stripes on the reverse. There are at least four known Proofs of this date that show some of the design weaknesses as previously described.

1836 Quarter Eagle

This date has a reported mintage of 547,986 pieces and is the most frequently offered date in the Quarter Eagle series. There are eight known die marriages that were struck from six obverses and four reverses. This is the most interesting date in the series because three different central devices were used to prepare the obverse dies. These are known as the Head of 1834, the Head of 1835 and the Head of 1837. The three heads are identified by the central device that was used during each of the other years at the Philadelphia Mint. The Head of 1835 is the most frequently offered Type, but all three head Types are readily available in all grades through Mint State. Coins of this date frequently show weakness in the curls below LIBERTY on the obverse, while even high-grade pieces show weakness in the horizontal and vertical shield stripes and in the eagle's feathers below the lower left side of the shield. One very common Head of 1835 obverse is frequently seen with a die crack the runs through the 6th star and continues across the obverse to the rim between the 12th and 13th stars. There are seven known Proofs of this date that were struck from three different obverses.

1837 Quarter Eagle

This date has a reported mintage of 45,080 pieces, and it is scarce compared to the previous three dates in the series. There are three known die marriages that were struck from two obverses and three reverses. However, all but a few of these coins were struck from a single die pair. Examples are usually very well struck, and Mint State coins are scarce. There are three known Proofs, one a Circulated coin that has some surface damage.

1838 Quarter Eagle

This date has a reported mintage of 47,030 pieces, but there is only one known die pair for this date. It is about equal in rarity to the 1837 issue, but it is more readily available in Choice Mint State grades. Examples are always well struck, and the reverse for this year was prepared from a new central device with only two lines in each of the vertical stripes.

1838-C Quarter Eagle

This is the first Branch Mint Quarter Eagle, and it has a reported mintage of 7,880 pieces. There is only one known die pair; it has a doubled C mintmark that is positioned on the obverse between the date and the bust. Examples are always well struck, and this date is most often available in Circulated grades from VF to AU. Mint State examples are rare and only seldom available for purchase, most frequently at auction.

1839 Quarter Eagle

This date has a reported mintage of 27,021 pieces, and it is the rarest of the six Philadelphia dates in the series. It is most frequently available in VF to AU grades, and is very rare in Mint State. There is only one known die pair that was struck from an old reverse with three lines in each vertical stripe. Examples are always well struck with evidence of repunching through the last digit in the date. There are three known Proofs for this date.

EXECUTIVE DIRECTOR Pauline Miladin
MARKET ANALYST Jim Bisognani
PUBLISHER & EDITOR Shane Downing
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (*Greysheet*); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (*Bluesheet*) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (*Greysheet*) is: $54.00 for six months, $98.00 for one year and $162.00 for two years. Phone: (310) 515-7369

1839-C Quarter Eagle

This issue has a reported mintage of 18,140 pieces, and it is more readily available than Charlotte coins from the previous year. There are three known die marriages that were struck from two obverses and three reverses. This issue is most frequently available in VF to AU grades, and Mint State coins are very rare. Examples are usually well struck, and the mintmark is positioned on the obverse between the date and the bust. The most common die marriage has a strongly recut 3 in the date, and this die pair develops bisecting die cracks on both the obverse and the reverse in later die states.

1839-D Quarter Eagle

This issue has a reported mintage of 13,674 pieces, and there are two known die marriages that were struck from one obverse and two reverses. Examples are generally well struck and most frequently available in VF to AU grades, while Mint State coins are very rare. One of the two reverses develops several strong die cracks in later die states.

1839-O Quarter Eagle

The reported mintage for this issue has been listed at 17,781 pieces for many years, but recent research by Richard Kelly and Nancy Oliver has produced documents indicating that the correct mintage should be 9,396. There are two known die marriages that were struck from two obverses and two reverses. This is the most commonly available Branch Mint issue in Mint State from this series with Choice BU examples offered with some regularity. Both reverses develop strong die cracks with these defects clearly visible on many specimens. The close fraction variety is frequently seen with an upset reverse.

Classic Half Eagles

Total mintage for the seven Half Eagle issues is just over 2 million pieces. The 1834, 1835 and 1836 issues are the most commonly available dates, but the 1837 and 1838 issues are also offered on a regular basis. All five Philadelphia dates are readily available in Mint State and Choice BU grades with the 1837 the most difficult to obtain in Choice condition. The 1838-C and 1838-D issues are scarce in Circulated grades, but become rare in Mint State with the 1838-C much more difficult to obtain in Mint State. More detailed information on the individual dates is given in the paragraphs below.

1834 Half Eagle

This issue has a reported mintage of 657,460 pieces, the highest of the dates in the Classic Gold series. It is the most frequently offered date, and is readily available in all grades through Choice BU. Nine die marriages are known that were struck from five obverses and four reverses. The most popular obverse for this date has a script 8 and a crosslet 4. This date style is well known and sought after by many Gold specialists. It is a scarce variety, but regularly offered at auction in Circulated grades, becoming quite rare in Mint State. The other four obverse dies all have a plain 4, but two of them have a script 8 while the other two have a block 8. Both of these date styles are readily available in all grades through Choice BU. Pieces are generally well struck with the most common weakness being in the curls above and to the left of the ear on the obverse. One obverse develops multiple die cracks through the left side stars. There are perhaps 10 to 15 Proofs for this date from two different die pairs.

1835 Half Eagle

This issue has a reported mintage of 371,534 pieces, and there are eight known die marriages that were struck from three obverses and five reverses. One obverse has a small 1, a block 8 and a 5 with a short, straight flag. This obverse accounts for about 80% of all known coins of this date, and examples are readily available in all grades through Choice BU. A second obverse has a script 8, and while examples are scarce, they are available in all grades through Mint State. The third obverse has a tall 1, a block 8 and a 5 with a long, curved flag. This obverse is very seldom encountered, and examples are *very* rare in any grade. Examples are generally well struck with only limited weakness in the curls above and to the left of the ear on the obverse. Three Proofs of this date are known, two from the Pittman collection and the other at the Smithsonian.

1836 Half Eagle

This issue has a reported mintage of 553,147 pieces, and there are nine known die marriages that were struck from seven obverses and six reverses. Examples are readily available in all grades through Choice BU. Three of the obverse dies develop strong die cracks that bisect the obverse dies while one of the reverse dies develops a bisecting die crack. Examples are generally well struck with limited weakness in the curls above and to the left of the ear on the obverse. Six of the obverses have a block 8, and examples are available in all grades through Mint State. One obverse has a script 8, and examples are extremely rare in all grades. There are at least five known Proof coins of this date.

1837 Half Eagle

This issue has a reported mintage of 207,121 pieces, and there are three known die marriages that were struck from three obverses and three reverses. Two obverses have a block 8, and examples are generally available in all grades through Mint State. The third obverse has a script 8 with examples very scarce in Circulated grades and very rare in Mint State. Examples are generally very well struck with limited weakness in the curls above and to the left of the ear on the obverse. There is one known Proof coin of this date at the Smithsonian.

1838 Half Eagle

This issue has a reported mintage of 286,588 pieces, and there are two known die marriages that were struck from two obverses and two reverses. This issue is not as frequently available as 1834 to 1836 Half Eagles, but there is a surprising number of Mint State and Choice BU coins available for purchase. Examples are generally very well struck, and nice BU coins can frequently be purchased by interested collectors.

1838-C Half Eagle

This issue has a reported mintage of 17,179 pieces, and there are two known die marriages that were struck from one obverse and two reverses. Interestingly enough, the obverse die has block 8s in the date—the only Half Eagle obverse of this year with block 8s. This issue is very scarce in AU grades and extremely rare in Mint State. Many examples are poorly struck and show weakness in the design on the obverse and reverse. There is often weakness through the obverse stars and in the lettering on the reverse. One of the reverse dies develops a diagonal bisecting crack, and coins struck in this die state show weakness through the reverse shield and particularly in the eagle's feathers and in the leaves on the lower left side of the shield.

1838-D Half Eagle

This issue has a reported mintage of 20,583 pieces that were struck from a single die pair. The obverse die has script 8s in the date, and the Dahlonega mintmark is slightly to the left of being centered over the 3 in the date on the obverse. Examples are very well struck and frequently available at auction in grades through AU, while Mint State examples are scarce. This issue is much easier to obtain in grades of XF and higher than the 1838-C Half Eagle from this series.

This article is intended to provide some background information on the Classic Head Gold Quarter Eagles and Half Eagles produced at the United States Mint from 1834 to 1839. While this was a very short series, it contains the first Branch Mint Gold coins struck at the Charlotte, Dahlonega and New Orleans Mints. All seventeen coins in the Classic series are obtainable by the interested collector at a reasonable cost, and they make a beautiful set of early Gold coins for an investor or collector.

Last Chance for Great Savings in Portland!

Bowers and Merena's *Official* Auction for the ANA National Money Show™

Auction & Lot Viewing March 9-15, 2009 • Portland, Oregon

Consignment Deadline: January 26, 2009

Bowers and Merena Auctions is proud to be chosen by the American Numismatic Association to host one of two highly anticipated official auctions for 2009 in Portland and Los Angeles. We invite you to be part of the premier numismatic events of the year by consigning your coins and currency to the auctions that collectors and enthusiasts everywhere will be waiting for!

There's no time like the present to consign to the *Official* Portland ANA Auction…
And by present, we mean Bowers and Merena wants to give you a present for consigning early!

Dealers, Steve Deeds has a special early bird consignment offer just for you!

Consign your coins or currency by Wednesday, December 31, 2008, to Bowers and Merena's Official Auction of the ANA National Money Show, and Steve Deeds will make a special money-saving consignment offer just for you!

Call Steve today for this exclusive dealers-only offer that will be customized to your consignment for maximum savings!

Hurry, this offer expires Wednesday, December 31, 2008!

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

8 GREAT REASONS TO JOIN TODAY!

1 12 ISSUES OF *NUMISMATIST.*
Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

2 BORROW THE BOOK BEFORE YOU BUY THE COIN.
The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

3 LEARN WHAT THE EXPERTS KNOW!
The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

4 SAVE MONEY.
The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

5 INSURANCE.
Insure your collection for as little as 50 cents per $100 of value. Your homeowners' policy can't match the rates or the coverage.

6 GRADING AND CONSERVATION SERVICES.
Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.
Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

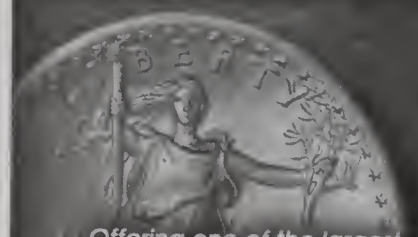

8 MEDIATION SERVICES.
Mediation for numismatic disputes is available through the ANA.

Join by phone, 800-514-COIN (2646), or online at www.money.org

for over forty years, collectors needing confidential direction and reliable advice have successfully turned to

Julian M. Leidman

Professional Numismatist & Consultant

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the ***formation of your collection***; with more than 40 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with ***confidential advice***, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your ***personal representative*** for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the ***orderly disposition*** of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can ***appraise*** your collection or individual pieces. You know your needs best; contact me for ***expert*** assistance.
